New Look "II" Ahead After '57 Funds Bill

The Joint Chiefs of Staff, spurred by Defense Secretary Charles E. Wilson, are getting set for stepped-up study of the Nation's military needs through 1960.

Launching of this inquiry coincides the state of the st

with the presentation to Congress by President Eisenhower this week of mili-tary spending plans for the year starting 1 July.

The Chief Executive has proposed a \$35.547 billion spending program, described in detail in stories throughout this issue.

At the same time, the President urged every reasonable measure" to improve attractiveness of military service.

Specifically, the Administration advo-cates improved family medical care, more equitable survivor benefits, reduced rentals for substandard government quar-ters, and increased Regular officer strengths.

Hearings on a family medical care plan are slated to begin next week in the House Armed Services Committee. A

Congress O.K.'s Tax Benefit For Retired

The first major piece of military legis-lation to clear the new session of Con-gress will provide income tax benefits for thousands of retired military person-

nel.
The Senate this week approved and sent to the President a House-passed bill (H.R. 7036) which liberalizes the present retirement income tax credit by permitting retired military personnel—regardless of age—to earn up to \$1200 in outside income and take full credit on \$1200 of their retirement new

of their retirement pay.

The measure also provides that retired personnel who are 72 or older may earn outside income without limitation.

ADMIRAL ARTHUR W. RADFORD, USN, Chairman of the Joint Chiefs of Staff, and General L. L. Lemnitzer, USA, FEC/UNC Commander, line up for chow with the 34th Infantry Regiment in Ko-rea. The JCS Chairman returned this week from his Far East tour.

President Signals Huge Regular Buildup; AF Limit May Rise 41,925; Army 18,900

Thousands of Reserve officers on active duty—mainly in the Army and Air Force—are going to get a crack at Regular commissions, if Congress approves a new Pentagon plan. Some appointments will

Pentagon plan. Some appointments will be in field grades.

The Regular Navy and Regular Marine Corps also will increase their officer strengths, but only in limited numbers. Defense Secretary Charles E. Wilson has won a green light from the White

nas won a green light from the white House for an expansive long-term augmentation bill. It was advocated by President Eisenhower in his Budget Message this week, as had been done earlier (THE JOURNAL 7 Jan.) in the State of the Union Message.

Here is the story:

ARMY—Now authorized 30,600 Regulars, the Army section of the new legislative request will seek a ceiling of 49,500,

with a buildup to 36,640 planned by July 1958 and 39,600 five years later. The Army currently has 25.6% Regular officers, will increase this to 36% in the next two years and then to 40% by 1963.

NAVY — Pentagon plans call for the Navy to expand its Regular officer strength from a present 43% to 48% by July 1958 and to 50% by 1963. The Navy now has about 38,000 Regular officers.

AIR FORCE-Now authorized 27.500 Regular officers, the Air Force is destined in the new Defense Department manpower plan to have a ceiling of 69,425 Regulars, though, as with the Army's 49,500 limit, this ultimate figure may never be attained. However, the Air Force program provides specifically for an active Regular officer strength of 49,986 by July

Money And Forces In President's Budget

TERE are the military highlights of President Eisenhower's Budget Message to Congress for the year beginning 1 July, with comparative figures for end FY '56

M	oney (Millio	ns of Dollars)	
	Army	Navy	Air Force	Marine Corps
New Funds	7,706 (7,063)	9,982 (9,575)	15,418 (15,711)	Included in Navy
Spending	8,582 (8,510)	9,565 (9,435)	16,535 (15,960)	

Forces on 30 June '57

ARMY—19 divisions (18), 10 regimental combat teams (10), 143 antiaircraft battalions (137), an aircraft inventory of 3954 (3534), with 1,034,500 active duty strength (1,034,300) and 706,700 in Reserve Components drill pay status (622,155).

NAVY—1005 ships (994), including 411 combatant vessels (405) and 594 other ships (589), 17 carrier air groups (17), 31 carrier antisubmarine squadrons (31), an aircraft inventory of 12,570, including Marine Corps aviation (12,548), with 663,223 active duty strength (662,774), and 165,359 in Reserve drill pay status (159,691).

AIR FORCE—137 wings (131), 11 troop carrier wings (13), active aircraft inventory of 26,736 (26,429), active duty strength of 936,000 (916,000), and 167,665 Reservists in drill pay status (144,965).

MARINE CORPS—3 divisions (3), 3 aircraft wings (3), active strength of 205,735 (201,000), and 60,060 Reservists in drill pay status (50,608).

COAST GUARD—no change in vessel strength with 18 cutters on ocean station duty, active duty strength will be 25,946 (25,725), with 6925 in Reserve training.

PENTAGON FIGHTS FOR FAMILY PURSE

The Defense Department has met head-on charges made by the Hoover Commission against military commissaries and post exchanges and has given notice it will resist efforts to curtail their operations or raise prices for merchan-

tice it will resist enous to curtain the systems of the dise.

The Hoover Commission had declared that commissaries and post exchanges should be confined, "in accordance with the intent of Congress to localities where adequate or reasonably convenient services are not available." The Defense Department has countered with the statement that the intent of Congress is being followed carefully.

Proposals by the Hoover Commission which would result in higher prices for service families are opposed by the Pentagon, as described on Page 3.

THE VIEW AHEAD

Plans for the military forces of the Nation through the end of June 1957 are told in President Eisenhower's Budget Message to Congress. The Journal publishes on Page 11 the text of the section on the Armed Forces

The Journal Sights The Week In National Defense

PRESIDENT EISENHOWER'S military budget for the PRESIDENT EISENHOWER'S military budget for the year starting 1 July, which forecasts Armed Forces expenditures of \$35.547 billion—almost one billion more than this year—commanded priority attention this week. Following its release on Monday, Pentagon officials set to work completing preparations for the start of hearings by the House and Senate Appropriations Committees and for related inquiries by the Armed Services Committees. Preliminary Congressional reaction to the new spending plans indicated a favorable reception, though Defense Department chiefs were put on quick notice that they would be interrogated carefully on the matter of relative gains by U. S. and Communist forces in the fields of atomic with the property of the Armed Services Committee, the property of the Armed Services Committee, the Armed Services Committee, rai of progress being made in los, this week expressed concern atomic propulsion for slips, this week expressed concern that the knowled neight be winning the race for a 1500-mile range guiden messic.

DEFENSE SECRETARY WILSON, satisfied with the National Security Council's reception of his military budget presentation, is prepared to tell Congress that the fiscal '57 funds will assure a "proper" program, with "continued emphasis . . . given to the development of ready tinued emphasis . . . given to the development of ready retaliatory forces of tremendous striking power and to a continental defense system of steadily increasing effectiveness," as related in the Budget Message. Though the new ness, as related in the Budget Message. Though the new program provides for unprecedented acceleration in some weapons areas—notably guided missiles—it is evident that President Eisenhower and Secretary Wilson do not think the time has yet come when conventional force levels can

FEW MILITARY BUDGETS in the Nation's history have sought the stability in manpower and units projected in the fiscal '57 blueprint. Personnel strength changes will be slight, pointed up by a 200-man difference in Army year-end totals. Force levels will be virtually unchanged from previous schedules. The Army will have 19 divisions, as long forecast. The Navy's fleet strength will be boosted by six warships and five other vessels for a new total of 411 combatant and 594 other ships. The Air Force buildup will proceed, as planned, with 131 wings set for 30 June 1956 and 137 a year later. The Marine Corps will have three divisions and three air wings for another year. No significant changes are in sight for the Coast Guard. FEW MILITARY BUDGETS in the Nation's history

THE FISCAL '57 STABILITY does not mean, however, that our military planners are agreed that the line-up for the next 18 months is a final answer. Far from it. Secretary Wilson has called upon his advisors, principally the Joint Chiefs of Staff, to formulate a new three-year plan for defense forces. This study is certain to give stronger consideration than ever before to the impact of new weapons. In such matters as which Service is to control the employment of these weapons—notably extended range guided missiles—there are seeds for the growth of strong differences of viewpoint, which ultimately will have to be resolved by the Defense Secretary and the President, but probably not until after the November elections. probably not until after the November elections.

MINIMAL CONTROVERSY attended the resolution of fiscal '57 budget discussions at the Pentagon, attested by Secretary Wilson's concession this week that for the first time in the past three years the Joint Chiefs of Staff were time in the past three years the Joint Chiefs of Staft were unanimously agreed on the force levels proposed to Congress by President Eisenhower. This fiscal '57 accord in the JCS was focused against widely circulated charges by former Army Chief of Staff, General Matthew B. Ridgway, that he was "nonplused" by President Eisenhower's statement in the 1954 State of the Union Message that the ICS had unanimously recommended the defense program. JCS had unanimously recommended the defense program proposed for 1955. He said in a "Saturday Evening Post" article (21 Jan. issue) that the '55 budget, as well as those for '56 and '57 was a "directed verdict" which "were squeezed within the framework of preset, arbitrary manower and fiscal limits, a complete inversion of the normal

GEN. RIDGWAY'S ATTACK, which brought instant demands for a Congressional inquiry from a number of Democratic legislators, was countered initially in temperate fashion by Secretary Wilson, who told a news conference on 17 Jan., that the former Chief of Staff had disagreed with JCS recommendations for Army force levels a fact the Secretary had made known previously. Mr. Wilson said he had "no quarrel" with the general, whom he described as a "dedicated officer who has done a great deal for his country." There were reports, however, that if a full-scale inquiry is launched on Capitol Hill, the De-fense Department would be in a position to produce documents which would show General Ridgway to have documents which would show General Ridgway to have agreed, in writing, at certain points to Army force level cuts, which he subsequently opposed. Whether this would show that the President had been in error about the unanimity of the JCS, as reported in the State of the Union Message of 1954, or whether General Ridgway had, in fact, at one time agreed to the force levels—this remained for the promised inquiry.

AT THE CAPITOL this week, the House Armed Services Committee heard testimony by the Navy's top admiral (story on next page) regarding the need for an energetic shipbuilding program to provide atomic-powered ships and vessels with guided missile capabilities. Admiral Burke, USN, CNO, stressed the growth of the Soviet Navy, par-ticularly the expansion of its submarine force. In this connection, it is pertinent to note the disclosure in budget documents this week that in the six-month period from 31 Dec. 1955 to 30 June 1956, the Navy will have increased from 19 to 31 its carrier antisubmarine squadrons

CHAIRMAN CARL VINSON intends to follow up the shipbuilding hearings with action—probably next week— on the Family Medical Care Bill, which was advocated by President Eisenhower in his State of the Union Message of 5 Jan. and again in his Budget Message this week. As reported in full text on Page 11, the President called also for legislation to improve Survivor Benefits, to permit reduced rentals for Service families in substandard Government quarters, and to authorize an increase in Regular officer strengths. Pentagon officials estimate that roughly \$200 million in new spending will be required during FY '57 to provide career incentives which the President has approved.

AN UNUSUAL SITUATION has developed in which the Services want to close four Naval industrial plants in favor of private enterprise operations. The House Appropriations Committee refused, however, to grant approval. It remains to be seen whether Secretary Wilson, with the President's approval, will close the facilities anyway. General Eisenhower has said that the "rider" requiring Appropriations Committee approval is an unconstitutional invasion by the Legislative of Executive authority. Mr. Wilson this week said only that he would give the matter further study. further study.

WHATEVER ITS DISPUTE with the Appropriations Committees over closing facilities, the Pentagon is count-ing on Service friends in the Appropriations and Armed Services Committees to thwart new efforts which are certain to be made against military post exchanges and com-missaries. As reported on the first page and on the opposite page of this issue, the Defense Department is prepared to go all-out in protecting these benefits from new restric-tions. This attitude, coupled with the President's plea for improved career attractiveness, can be counted on to raise morale throughout the Armed Forces, thus enhancing the stability which is the goal of the Chief Executive's FY '57

USMC Sets Quotas For LDO And WO Programs

The Marine Corps has released fiscal '57 appointment quotas for the warrant officer and limited duty officer programs.

Headquarters reveals that it has authorized appointment of nine LDO's; 62 technical warrants; 24 non-technical (Marine Gunner) warrants; and one woman Marine warrant.

All appointments made under the programs will be permanent.

In contrast to the appointments made during the first year of the annual program, applicants under the FY '57 program will be required to take examinations. Proficiency tests in the occupational field in which they are applying for appointment will be given to LDO and non-technical warrant candidates. Marine Gunner applicants will take the general military proficiency exam only.

Women Marines will not compete with male candidates and will be required to pass a general military proficiency test.

All exams are scheduled for 2 April;

All exams are scheduled for 2 April; no alternate tests will be given.

Regular and Reserve temporary commissioned and warrant officers; permanent Reserve officers who will be on active duty on 1 July 1956, who were former enlisted men; and Regular M/Sgts. and T/Sgts. are eligible former tests. T/Sgts. ane eligible to apply for warrant appointments. They must have less than 19 years, six months active duty time on 1 July 1956, and must not have reached their 46th birthday by that date.

Those appointed from the Regular Marine Corps will retain their bigher town.

Those appointed from the Regular Marine Corps will retain their higher temporary rank until such time as future considerations may require reversion to permanent grade, Headquarters says. Reservists serving in a higher grade will not be reappointed to the higher grade. All appointments will be to pay-grade W.1 with no promotion credit

W-1 with no promotion credit.

Those appointed LDO's will be made 2d lieutenants, and if serving in a higher rank will not retain the advanced status.

Complete details of the programs are contained in Marine Corps Memo. 5-56.

Col. Compton Named Head Of Ordnance School

Hughes, USN, Assistant Director, Budget & Reports, General Planning Group, Office of Chief of Naval Operations, Washington, D. C.; Capt. Richard E. Morell, USCG, Chief of Enlisted Personnel Division, USCG Hq, Washington, D. C.; and Lt. Col. Dorwin C. Wright, USAF, Executive Officer, 3595th Air Base Group, Nellis Air Force Base, Nev.

PLAID SOCKS SCORNED IN UNIFORM WEAR

The Air Force is disturbed anew over reports that officers and NCO's are failing to enforce uniform regulations. The Inspector General has commented that "the manner of wearing the Air Force uniform at times appears to be a

matter of individual preference."

Prevalent irregularities which have been noted:

Non-regulation insignia, improper placement of insignia, wearing of boots and strap shoes, off-color or plaid socks, leather belts, jewelry and lodge pins, unbuttoned pockets, and unmilitary appearance caused by articles projecting from pockets.

The Inspector General declares that "in some instances fatigue clothing has more closely resembled surplus store purchases than military issue . . ."

Commissary Cut, Price Hike "Serious" Blow To Morale, Says Pentagon Answer

Curtailed operations of military com-missaries or increases in the price of groceries bought by Service families "would have serious morale effects," the Defense Department has declared.

This warning is sounded in the Penta-on's forthright response to Hoover to Hoover Commission recommendations on com-

Non-concurring with Hoover proposals Non-concurring with Hoover proposates for confining commissary operations, the Defense Department states that the stores are being operated under rules provided in the Appropriations Act and under regulations agreed to by the House Armed Services Committee.

Armed Services Committee.

Responding to the Hoover Commission proposal that "prices . . . be made adequate to cover all costs," the Defense

Department states:

"The ability to purchase food at advantageous prices in the commissary stores is a long established privilege of military personnel. It has always been taken into account in consideration and establishment of military pay scales, is of particular importance to enlisted personnel and junior officers."

is of particular integration of personnel and junior officers."

The Pentagon asserts that "a reduction or denial of this privilege would have serious adverse morale effects and would contribute to dissatisfaction with matters of military service. This conditions of military service. This would work directly in opposition to our current strenuous efforts to retain career personnel."

NEW PX REG.

The Defense Department this k released a new Armed Serv-Exchange Directive (1330.9) which replaces a similar document issued in August 1949.

It tells who may purchase at Exchanges and lists in detail the limitation on items which may be sold—for example, no bottle of perfume over \$5.

Noting that Congress has prescribed criteria for determining prices at commissaries, the Defense Department maintains that "an increase in prices to authorized commissary store patrons will have an adverse effect on Service morale and increase the difficulty of retaining career personnel."

To the Hoover Commission recom-mendation that a study be made con-cerning feasibility of contracting for op-eration of commissaries, the Defense Department reports that such a study in 1954 showed that this procedure would result in "unacceptably increased cost to military families and was therefore undesirable."

The Commission said that the Armed Services operated 438 commissaries with sales that were worth \$306,000,000 dur-

Scheme To Close Some PX's, Restrict Sales Draws Sharp Retort From Defense

Defense Department satisfaction with the present administration of the \$1,000,000,000 annual PX sales and the intention to resist attacks that would "weaken morale" are affirmed in newly revealed opposition to five out of six Hoover Commission PX recommendations.

The Pentagon statement commenting on the Hoover proposals reflects approval for policies of the Army-Air Force Exchange Service, commanded by Maj. Gen. H. L. Peckham, USA.

Peckham, USA.

Answering charges made against present Post Exchange operations, the Defense Department declares: "The exchange privilege is one symbol of membership in the military community. It helps to unite those in military service. It is a symbol of belonging to the military, like the uniform, the salute, the retreat parade. The base exchange helps to build Service morale. Its elimination or curtailment would weaken

The Hoover Commission made six specific proposals concerning Post Exchanges Here they are, with the Pentagon's reaction to them:

HOOVER COMMISSION

Says PX's should be confined to localities where "adequate or reasonably convenient services are not available," in accordance with the intent of Congress; "restrict use of PX's to military personnel except in isolated and overseas locations."

Wants prices made adequate to cover all costs; impose and enforce penalties for resale by purchasers of any goods bought at PX's.

Declares that except in isolated areas, PX's should cease selling luxuries, jew-elry, sporting goods, cameras, and other items of high unit value.

Maintains that use of military personnel supported by appropriated funds in PX's be terminated except for supervisory

Urges consideration for contracting out

Proposes that the Comptroller General be instructed to make a complete survey of PX's to determine what the benefits "really are and what the profit and loss really is."

PENTAGON RESPONSE

Rejects inference that Congressional intent is being circumvented; points out specific Armed Services Committee ap-proval; notes that with few exceptions. sales are limited to active duty and re-tired personnel and their families.

Reports Capitol agreement with price system; warns that price rises will have adverse morale effect; adds that commanders enforce rules against pur-chases for resale.

Says merchandise sold in U.S. exchanges strictly limited to list agreed to by House Armed Services Commit-tee; observes that in comparison with civilian department stores, "unit value is distinctly low."

Comments that 1,300 military personnel in PX operation is not "unreasonable" and holds that these assignments are "necessary and desirable."

Reports this has been studied, but would mean either higher prices or curtailed

Voices no objection to such a study and promises cooperation for this and any other study into PX activities.

"We Must Drive Hard" Congress Told Red Fleet Growth "Startling," Says CNO;

The "most significant development in Soviet grand strategy since WWII," is the rapid ascendancy of the Red Fleet to the position of the world's second major naval power; delays in U. S. response to this advance could be "fatal," Admiral Arleigh Burke, USN, Chief of Naval Operations, told the House Armed Services Committee on 18 Jan.

Here are key excerpts from the Admade in support of the Navy's new ship-building program:

N order for the Navy to execute the IN order for the Navy to execute the many tasks required of it, the most modern ships and aircraft of the kinds and numbers required to fight in any kind of war are indispensable

Soviet Speeds Subs

Another very important factor has influenced our thinking in developing this shipbuilding program. This is the rapid ascendancy of the USSR to the position of a major naval power second now only to the United States. It is the most significant development in Soviet most significant development in Soviet most significant development in Soviet grand strategy since World War II. It is obvious that the USSR has one purpose in mind and that is to prevent U. S. naval forces and our shipping from entering the waters surrounding Europe and Asia, Her submarine fleet now numbers over 400 of which a large

now numbers over 400 of which a large percentage are new construction long range boats. In each of calendar years 1956 and 1957, she will commission about 75 to 85 new modern submarines.

Besides this huge underseas fleet, she has built more cruisers and destroyers since World War II than all the nations of the rest of the world combined. These surface ships are modern and incorporate the latest technological equipments. They are fully manned in active ments. They are fully manned in active commission and are continuously undergoing rigorous training operations.

These startling facts demonstrate the important position the control of the seas holds in the Soviet grand strat-

Delays May Be Fatal

Our Reserve Fleet ships are no longer as great an asset as they have been in the past decade. This applies in a lesser degree to our active ships which, in many cases, have been modernized and, in all cases, have been improved to meet in all cases, have been improved to meet modern operational requirements. How-ever, because of the rate of technologi-cal advance today, yesterday's or even today's weapons rapidly become mar-ginal or obsolescent. We must drive hard to develop and incorporate new veapons in our ships. Delays may be

To insure our survival we must re-To insure our survival we must retain our sea supremacy. It has been and continues to be our policy to accomplish this by the modernization of existing ships to achieve economy and speed. When this proves infeasible, we build new and more advanced types. If we don't build the new where the old cannot be modernized or converted, we very soon create glaring deficiencies in the Fleet. the Fleet

The program in this Bill places great emphasis on offensive striking power, especially naval air striking power. It provides another substantial step to-ward a nuclear propelled Navy which we intend to accelerate each year. It provides for the maximum use of nu-clear and other new weapons, and of high-speed jet attack aircraft. It accelrates our integration of guided missiles

Bold A-Program Mandatory

Judging from the NAUTILUS and the general rate of development, I am convinced that a bold program in nu-

clear propulsion is not only warranted but mandatory, in submarines and in surface ships as well. That is why the program before you includes six nu-clear powered submarines, one nuclear powered guided missile cruiser, and the authority to commence design and advance procurement for one nuclear powered aircraft carrier. In my judgment this represents the most rapid ad-vance that we can make in this field this year. There remain obstacles in design and application which must be surmounted. These problems we will solve as fast as we can.

In the field of new weapons develop-ment guided missiles have reached the ment guided missiles have reached the stage where their rapid integration into the Fleet is not only justified but also mandatory. Maximum progress in this most important field is provided in this Bill by authorizing the construction of one guided missile cruiser (also to be nuclear powered), four frigates and eight destroyers and the conversion of five light cruisers and one submarine to guided missile ships. These ships are urgently needed to improve our air deurgently needed to improve our air de-fense and offensive striking capabilities.

Summary of Bill

The Bill authorizes the construction of 23 naval vessels, large and small, plus not over 5,000 tons of landing and service craft; the conversion of 18 existing naval vessels; the acquisition and conversion of one Mariner Class and four Liberty Class merchant ships; and the authority to company of the conversion of the authority to commence design and advance procurement for the power plant of a nuclear powered aircraft carrier.

I. NEW CONSTRUCTION

One Attack Aircraft Carrier of about

If conversions in the present budget are authorized, we will have, in effect,

five degrees of capability among all our carriers (when the conversions in the present budget are completed).

First the FORRESTAL Class (five authorized through Fiscal Year 1956).

This class has a capability of operat-This class has a capability of operating all present and planned high performance aircraft. Conventionally powered carriers of this or similar class will not be rendered obsolete by later development of nuclear propulsion. These ships will be fully capable of performing their mission through their propulsion. forming their mission through their entire useful life.

Second MIDWAY Class conversion (3 ships) capable of operating all present and planned carrier aircraft until 1966. but less efficiently than the FORRES-

Third HANCOCK (27C) Class conver-Third HANCOCK (27C) Class conversion (6 ships) capable of operating present aircraft, but not as efficiently as MIDWAY Class. By 1960, these ships will have marginal capability for operating new high performance attack aircraft but will still have significant capabilities as attack carriers. They cannot be further modified to increase their operational capability. By 1965, nine years from now, they will have the capability of operating anti-submarine nine years from now, they will have the capability of operating anti-submarine warfare aircraft, and light fighters for their own protection, but will not be capable of operating the heavy attack or MACH 2 fighter aircraft expected to be available by that time. At that time, they will have been operating for more than 20 years.

Fourth ORISKANY (27A) Class conversion (9 ships).

This class has marginal capability of operating present attack aircraft. By 1960, this class will have anti-submarine warfare and support capabilities but can no longer perform the functions of attack carriers.

U. S. Army

Army Strength Set, Little Change Ahead

The Army is slated to end the current fiscal year 30 June with a strength of 1,034,300 and is programmed one year later for a force with just 200 more

This remarkable stability is told in the

Administration's fiscal '57 budget.

The 30 June '56 target includes the addition of 7500 officers and men in Engineer and Signal units, known as SCARWAF personnel, who will be trans-ferred from the Air Force to the Army on 1 March.

on 1 March.

During fiscal '57, as the following table indicates, end-year officer strength will decline slightly, and there will be virtually an identical increase in enlist-

ed strength.

Because Army strength dropped considerably through most of fiscal '56, the average year strengths will show a decline in press '57 in both officer and enlisted ranks.

A	verage Ni	amber	
*1	55 Actual	'56	'57
Officers	125,080	122,200	116,700
Enlisted	1,183,105	963,700	906,800

Col. Swatta 4th Army Engr.

Col. Frank A. Swatta, USA, has assumed duties as Fourth Army engineer

at Ft. Sam Houston, Tex.
Colonel Swatta was named executive officer of the Fourth Army engineer section in January 1955, and served from June until December as Ninth Field Army engineer for Exercise Sage Brush.

THIRD STRIKEOUT

For the third straight fiscal year. the Army will be denied any new obligational authority for major procurement during fiscal '57.

This is disclosed in the Defense Budget, which reached Capitol Hill this week.

Hill this week.
As in past years, the Army will be required to use carry-over money for major procurement, in which category it plans to spend \$1,196,000,000.
It is estimated that at the end of fiscal '57, the Army will have \$7,800,000,000 in unexpended funds.

Gen. Bergquist Deputy At Vietnam For Training

Maj. Gen. Earl C. Bergquist, USA, As-Maj. Gen. Earl C. Bergquist, USA, Assistant Commander of the 3d Infantry Division at Ft. Benning, Ga., since December 1954, reports to Saigon in April to be Deputy Chief of the Military Assistant Group for Training under Lt. Gen. Samuel T. Williams, USA.

Before Benning, he was Chief of the rmy Section of the Joint MAAG in

MAJ. GEN. RALPH M. OSBORNE, USA, XVIII Airborne Corps Artillery Commander, Ft. Bragg, N. C., moves to Ft. Monroe, Va., this month for duty

Ft. Monroe, Va., this month for duty with the Continental Army Command.

BRIG. GEN. THEODORE W. PARKER, USA, is being reassigned from the Planning Coordination Group. Executive Office of the President, for duty in the Office of the Army Chief of Staff.

tires 31 Jan. after more than 32 years

3d Arm. Div. Convention

The ninth annual convention of the Third Armored Division Association will be held in Louisville, Ky., 18-21 July.

Among the features planned for the convention are a banquet, dance, and tour of Ft. Knox. Additional information can be obtained from Ernest DeSoto, 2326 Carlton Terrace, Louisville, Chairman of the convention.

Boost R&D Funds. A-Plant Included

The Defense Department has asked Congress to approve a \$70,000,000 increase in the Army's Research and Development program, which includes work on an atomic package power-plant.

An indication that the Army intended to step up the R&D program came dur-ing the latter part of 1955 when Mr. Wil-liam H. Martin, who had been Deputy to then Assistant Defense Secre-tary Donald A. Quarles (Research and Development) was appointed to be

Lt. Gen. Gavin

Army Director of R&D with status of an Assistant Secretary.

This was followed by the designation of Lt. Gen. James M. Gavin, USA, to be Chief of Research. He had been Deputy Chief of Staff for Plans and Research.

The fiscal '57 budget asks \$410,000,000 in new money for Army R&D activities. compared with \$340,250,000 voted for the present fiscal year.

The increased funds will be used, the Army said, to provide "for the applica-tion of scientific and technical resources to the problems of providing the Army with the firepower, mobility, intelligence and supporting capabilities necessary to meet the changing conditions of modern

Work will be accelerated on develop-ment of short take-off fixed and rotary-wing aircraft of increased range and allweather capability.

The guided missile field will continue to command high priority attention in surface-to-air missiles for air defense and surface-to-surface missiles for support of ground troops.

The Army is seeking new rocket launchers for advanced weapons and improved field guns, howitzers, mortars, small arms and other weapons.

Mr. Martin and General Gavin will give careful attention also to new types of ammunition, such as rockets, as well as increased effectiveness of artillery ammunition, mines, grenades and other small arms ammunition.

Lawson Army Air Field To Be Major Command

Lawson Army Air Field, established at Ft. Benning, Ga., one year after World War I, will again undergo an organizational change 15 Feb. when it becomes a major command of The Infantry Center.

The field, located in a shallow rim of hills west of Ft. Benning's Main Post, has been operating as an attached unit since February, 1955, when it was returned to the Army from Air Force con-

Under the new provision, its mission will be to continue to operate, maintain and secure its facilities and make them available to military aviation units assigned to Ft. Benning and to aircraft utilizing Lawson on a temporary basis.

All aviation units currently assigned to the post will be placed under direct com-mand of the field including the 37th Medical (Helicopter Ambulance) Detachment, 152d Transportation (Cargo Helicopter) Detachment, 506th (Light Heli-copter) Transportation Company, Army Aviation Detachment and the 25th Weather Squadron.

To be called Lawson Army Air Field Command, it will be directed by Col. G. A. Huff, USA, commander of the field.

The field was named in honor of Capt. Walter R. Lawson, who was awarded the Distinguished Service Cross for heroism in World War I.

504th Abn. Will Show For Army Sec. & CofS

Army Chief of Staff General Maxwell D. Taylor and Secretary of the Army Wilber M. Brucker will witness the striking power of the 82d Airborne Division during a three day visit to Ft. Bragg, N. C., beginning 24 Jan. when the 504th Airborne Infantry Regiment "hits the silk" in an airborne demonstration.

C-119 "Flying Boxcars" will drop the men and Heavy Equipment followed by the giant C-124 Globemaster for the aerial resupply with the C-123 assault craft air landing equipment on an unimproved field.

Also witnessing the demonstration will be a 27 man research and development team from Department of the Army.

National Guard Unable To Reach Goal, **New Budget Slates Increased Units**

The Army National Guard has advised Congress it will be unable to reach man-power goals set for the present fiscal year, but intends to expand in fiscal '57 with the addition of 100 local units.

The Army National Guard also will be strengthened by transfer on 1 March 1956 of 51 SCARWAF units from the Air National Guard.

Testimony on Capitol Hill last year showed that the Army National Guard hoped to end the current fiscal year with 425,000 personnel, including 39,400 officers. The revised objective is 407,100.

Little change is foreseen during fiscal 57, with the year-end strength set at 408,100, including 36,860 officers.

However, there will be marked increase in average strength, with the fiscal '57 program envisaging a day-to-day Army National Guard of 407,600, com-pared with the average force of 376,600 in fiscal '56.

The Army National Guard, now programmed for 5260 local units, plans to boost this total to 5,360, with the basic structure of 27 divisions and combat supArmy Navy Air Force Journal 21 Jan. 1956 (Vol. 93, P. 625)

Allison Turbines power new Piasecki "Transporter"

The world's largest turbine-powered transport helicopter, the 40-passenger Piasecki YH-16A "Turbo-Transporter" is powered by two Allison T38 engines driving its giant rotors. These two T38 engines, capable of a total of 5300 shaft horsepower, give the 16-ton "Turbo-Transporter" a speed of approximately 150 mph.

Two Allison T56 engines, capable of a total of 6900 shaft horsepower, will be used in the larger, more powerful production version of the "Turbo-Transporter," the YH-16B, which will carry a

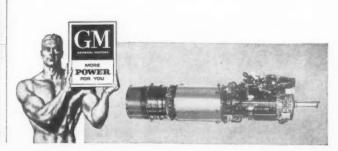

greater payload, or 69 passengers, at a higher speed.

Besides being smaller and lighter than piston engines of comparable power, which allows the helicopter to carry more passengers or cargo, gas turbine engines offer several other advantages: they need no extensive ground warm-up, are easier to service and maintain, and provide greater comfort for passengers

Improved Fuel Economy

With helicopters demanding high power for take-off and hovering for extensive periods of time, the turbine engine operates at its optimum efficiency. With the added advantage of the turbine engine using cheaper fuel, the over-all fuel economy is better than its pistonpowered counterpart.

The new era in American air travel offers increasing opportunities for helicopters, and powerful, compact Allison engines ideally meet the requirements of this service. They are backed by more than seven million hours of turbine engine flight time-experience where it counts most-in the air!

U. S. Navy and U. S. Marine Corps

Navy-Marines Get R&D Funds Boost

The Navy and Marine Corps will share \$470 million of research and develop-ment funds in the year beginning 1 July if Congress endorses a Pentagon request.

The Defense Department originally asked almost \$432 million for Navy-Ma-rine Corps R&D in fiscal '56, but later revised this upward to more than \$469

The Marine Corps allocation for FY '57 is \$5,075,000, almost the same as voted for the present year. In fiscal '55, however, the Marine Corps received only \$1.59 million for R&D.

The \$470 million program is high-lighted by plans to obligate \$140 million for work on aircraft and related equip-ment and \$98.5 million for guided mis-siles and related equipment.

It is significant to note that this represents about a \$5 million decrease in the aircraft category and almost a \$15 million increase in guided missiles.

Research and development on ships and small craft will be decreased slightly, from \$75.1 million to \$73.7 million.

The Navy, which will spend \$594.838 for R&D on artillery and other weapons this fiscal year, plans to use only \$106,000 for this work in the year starting 1

ENTERING NATO Southern Europe ENTERING NATO Southern Europe headquarters is Francis Cardinal Spell-man (right), of New York, with Admiral William M. Fechteler, USN, Commander NATO Southern Europe. Personnel from the six-nations attended the Mass and re-ceived the Cardinal's blessings.

Ships Up, Men Down In FY '57 Navy

The Navy will add six warships and five other vessels to the fleet during fiscal '57, but manpower will be decreased.

Slated to end fiscal '56 on 30 June with Stated to end lise at 56 on 30 June with 405 warships, the Navy has won Administration approval for 411 warships a year later and for 594 other ships—a total of 1005, compared with 994 planned for the end of the present fiscal year.

The Navy will have the same number of carrier air groups, 17, and carrier antisubmarine squadrons, 31, at the start and end of fiscal '57.

On the personnel side, newly announced plans will show the Navy beginning the year of 1 July with 662,744 officers and men, and ending the 12 month period with 662,175.

At the end of fiscal '57, the Navy forea strength level of 72,800 officers and 584,200 enlisted men, identical fig-ures with those at the beginning of the vear.

number of midshipmen is The pected to drop slightly, from 3673 to 3545 and there will be an estimated decrease, from 2101 to 1630, in the number of aviation cadets.

The Naval Reserve Program, which en-isages 159,691 in drill pay status on 30 une, will grow to 165,359 a year later, according to present plans.

Pentagon Compromises On Marine Strength, Procurement Will Slump Next Fiscal Year

The Marine Corps, shooting for a strength of 201,000, on 30 June will be increased slightly to a fiscal '57 year-end goal of 205,735.

The new budget will provide for 18,-000 officers, a drop of 150, and 187,735 enlisted men and women, about 5000 more than the present fiscal year target.

It is recalled that the Administration originally asked for a Marine Corps of 193,000 at the end of the current fiscal year, but Congress voted to provide funds for a Leatherneck strength of 215,-

Although the new budget will result in no significant change in manpower, analysis of the Marine Corps spending plans shows a marked slump in procure

Congress voted \$290,190,000 for pro-curement in the 12 months which end on 30 June, but will be asked to approve \$179,000,000 for the year that starts on July. Largest drop will come in the ammu-

nition and guided missiles category, with a reduction from about \$174,000,000 to approximately \$96,000,000.

Marine Corps Reserve costs will be increased from \$20,606,000 to \$26,800,000. It is estimated that there will be 50,608 Reservists in drill-pay status at the end of this fiscal year, with an increase to 60,060, including personnel in the sixmonth training program, by the end of

fiscal '57.

The Marine Corps also plans to train 4145 members of nondrill pay status Reserve, including 3320 officers.

Navy Band To Play
The U. S. Navy Band, under the baton of Cdr. Charles Brendler, USN, will present a concert in the Departmental Auditorium 3 Feb. at 8:30 P. M. Guest conductors will be Frederick Fennell and Don Gillis, while Lawrence Wiehe will be solo trombonist.

USMCR Board Convenes For Cols. and Lt. Cols.

Brig. Gen. William W. Stickney, USMCR, Acting Director, Division of Re-USMCR, Acting Director, Division of Re-serve, at Marine Corps Headquarters, is heading a selection board which is in session to choose Inactive Reserve offi-cers and active duty Reserve officers for advancement to colonel and lieutenant

At the same time, the General heads a board which will select Women Marine Reserve officers for promotion to major and captain.

The colonels board will consider lieutenant colonels soard will consider lieu-tenant colonels senior to and including Emmett O. Swanson, USMCR, who were not on active duty with the Regular es-tablishment on 21 July 1955, and whose names are not on a promotion list.

Majors senior to and including Laurin N. Dillon, USMCR, who were not on ac-tive duty with the Regular Marines on 1 Sept. 1955, and who are not on a promotion list will be considered for the rank of lieutenant colonel.

women Reserve captains senior to and including Margaret S. Ordemann, USMCR, and 1st lieutenants senior to and including Jane W. King, USMCR, who were not on active duty on 13 Dec. 1955, will be given consideration for promotion to the next higher ranks.

In addition, Headquarters announces that a board will sit on 31 Jan, to choose male Reserve officers for promotion to major. This board will be headed by Col. Kenneth W. Benner, USMC. Eligible for consideration are captains senior to and including John U. Reckamp, USMCR, who were not on active duty on 26 Sept.

RAdm. Glover Gets Three-Star Post: USN Up-Grades Two-Star Slot; Shifts 13 Flags

The Navy has slated new assignments for 13 flag officers, headed by RAdm. Cato D. Glover, jr., USN, Chief, Naval Air Advanced Training, NAS, Corpus Christi, Tex., who moves into a three-

star billet as U. S. Naval Deputy Commanderin-Chief, Allied Forces, Mediter-ranean. The last three-star officer to hold this post was VAdm. James Fife, jr., USN-Ret., who ended a 38-year career on 1 Aug.

At the same time, the Bureau of Personnel or-

RAdm. Glover dered RAdm.
Onnie P. Lattu,
SC, USN, to assume duties as Assistant
Chief of the Bureau of Supplies and Ac-Chief of the Bureau of Supplies and Accounts for Transportation. Until his assignment, this was a four-stripe billet. This does not mean, however, than an additional two-star billet has been added to the Navy's Table of Organization. It is planned to keep the T/O at its existing level by downgrading the post of Commanding Officer, Navy Finance Center, Cleveland, Ohio.

Admiral Lattu is now on duty as Commanding Officer, Ships Parts Control Center, Mechanicsburg, Pa.

Other two-star officers scheduled for assignments are:

RADM. WENDEL G. SWITZER, Commander, Naval Forces, Marianas; to Commander, Naval Forces, Philippines.

RADM. KENMORE M. McMANES, Commander, Mine Forces, Atlantic Fleet; to Commander, Battleship-Cruiser Force, Atlantic Fleet.

YOUR FUTURE

America in 1975

RADM. FRANK T. WARD, JR., Commander, Fleet Air, Alameda; to Commander, Carrier Division Two.

RADM. WILLIAM B. AMMON, Commander, Battleship Division Two; Commander, Naval Forces, Marianas.

RADM, NEIL K. DIETRICH, Deputy Commander and Chief of Staff and Aide, MSTS, Washington, D. C.; to Commander, Mine Force, Atlantic Fleet.

RADM. ROBERT GOLDTHWAITE, Commander, Carrier Division Two Chief of Naval Air Basic Training. Two; to RADM. WILLIAM L. ERDMANN, Deputy Chief of Staff, Commander-in-Chief, Allied Forces, Southern Europe; to Commander, Carrier Division One.

RADM. HENRY CROMMELIN, Assistant Chief of Naval Operations (Personnel); to Commander, Battleship Division

RADM. BALPH S. CLARKE. Commander, Carrier Division 18; to Chief of Naval Air Advanced Training.

RADM. PAUL L. DUDLEY, Commander, Middle East Force; to Commander, Carrier Division 18.

Shift Four Admirals

RAdm. Laurence H. Frost, USN, wilk exchange duties with RAdm, Charles H. Lyman, 3d, USN. Admiral Frost is presently Commander, Destroyer Flotilla Four, and Admiral Lyman is U. S. Navak Attache and Naval Attache for Air, American Embassy, London, England.

RAdm. William V. Davis, USN, Commander, Carrier Division Five, will report to the office of the Chief of Naval Operations, Navy Department, Washington, D. C. He will be relieved by RAdm. Aaron P. Storrs, 3d, USN, who is presently on the staff of Commander-in-Chief Pacific Fleet. Pacific Fleet.

THERMAL SHOCK TEST HELPS ASSURE RELIABILITY OF G-E 5-STAR SUBMINIATURE TUBES!

Glass envelopes must withstand sudden transfer from 185°F hot water to ice-water!

 ${
m F}_{
m and\ early\ tube\ failures.}$ These fractures often result from glass strains brought on by rapid changes in temperature.

When operating, tubes heat up . . . with the current off, they cool. In military use, moreover, tubes meet extremes of ambient, or external heat and cold. Sometimes these come in quick succession, as with airborne electronic equipment.

To make sure that G-E 5-Star subminiatures will perform reliably under these conditions, tubes at the G-E factory are first immersed in hot water, then immediately plunged into cold. After drying, they

remain at room temperature for a full 48 hourslater are carefully inspected with a microscope for any glass cracks that may have developed.

Dependability is the object of the test-dependable tubes only, the result! Like numerous other 5-Star checks and inspections, the thermal test helps to eliminate any but high-quality tubes-brings you General Electric subminiatures you can count on for trustworthy, long-life service.

Special tube design; unhurried manufacture in immaculate "Snow White" surroundings: these join with extensive and rigid testing to make General Electric 5-Star subminiatures the most reliable you can install. A broad selection of types is available. Write Tube Department, General Electric Company, Schenectady 5, New York.

-as some of the nation's leading business executives foresee it!

New 12-page brochure foretells directions of America's coming economic growth. Contains personally significant reading for professional people — businessmen — teachers - parents - every American.

Progress Is Our Most Important Product

Army Navy Air Force Journal 21 Jan. 1956 (Vol. 93, P. 628)

U. S. Air Force

AF Spends Millions For Dining Halls

The Air Force has revealed plans to spend \$11,250,000 by 30 June for 45 dining halls for 800 airmen each.

So far, funds have been provided for new dining facilities at 20 bases in the United States, Alaska and Spain.

They are Sioux City AFB, Iowa; Nor-They are Sioux City AFB, Iowa; Norton AFB, Calif.; Eglin AFB, Fla.; Bryan AFB, Tex.; Wright-Patterson AFB, Ohio; Goodfellow AFB, Tex.; James Connally AFB, Tex.; Lowery AFB, Colo.; Moody AFB.; Ga.; Nellis AFB, Nev.; Perrin AFB, Tex.; Reese AFB, Tex.; Sheppard AFB, Tex.; Vance AFB, Okla.; Campbell AFB, Ky.; Myrtle Beach AFB, S. C.; Elmendorf AFB, Alaska; and three bases in Spain. in Spain.

Besides the large 800 man dining hall design, the Air Force has developed a 400-airman hall, and three new style units for officers with 100; 240 and 400 capacity.

The 800-man dining hall will have 13.-The 800-man dining hall will have 13,400 square feet of space and will be T-shaped, with the dining area in the top of the T, and the kitchen facilities in the upright of the T. Each will cost approximately \$250,000, based on a cost estimate of \$19 per square foot.

The 400 man unit will cost about \$135,-

Innovations in design will permit airmen to wait in line inside the building, and the elimination of inside support columns will create an atmosphere of spaciousness for more pleasant dining.

Advertisers in the Army Navy Air Force Journal support the Armed Forces and are familiar with their requirements.

936,000 Men For 137 Air Force Wings

THE Air Force, which originally had planned to reach a strength of 970,000 by 30 June and add another 5,000 in the following 12 months, now will find it necessary to man its 137-wing program with an average FY '57 strength of 920,820. By 30 June of next year, the Air Force hopes to hit a strength of 936,000 from a low of 916,000 projected for the end of FY '56, as indicated in the following table:

USAF Academy Cadets To Issue "The Talon"

The U. S. Air Force Academy cadet magazine, to be called *The Talon*, is in the final stages of production, with the first issue due for distribution to key Air Force officers as well as Academy officers and cadets early in February.

The Talon will be published monthly through the balance of the academic year. It is expected that a total of nine issues will be produced during future cademic years.

academic years.
Editor-in-chief of *The Talon* is Cadet Carl E. Bovay. Bovay heads an eightman staff which includes: Cadets Dean C. Wood, managing editor; Brad C. Hosmer, literary editor; C. Martin Lofton, jr., sports editor; James C. Welch, art editor; Larry D. Fortner, layout editor; Patrick L. Musmaker, business manager; and Carl A. Soucie, editor's special assistant. sistant.

Maj. Gerald F. Richter, USAF, Faculty Officer-in-Charge, says the major responsibility for planning, scheduling and editorial make-up of the publication will be in the hands of the cadets.

USAF Schedules 1956 Sports Competitions

Twelve sports activities are listed for Air Force-wide competition in 1956. Dates and host bases as follows:

Date	Sport	Place
5- 9 Mar.	WAF Bas	ketball. Eglin AFB, Fla.
12-16 Mar.	. Basketbal	Patrick AFB, Fla.
		Bolling AFB, D. C.
		Sheppard AFB, Tex.
		Hamilton AFB, Cal.
7- 8 June	. Track-Fie	ld March AFB, Cal.
26-28 July	. Swimmin	3-
	Diving	Mitchel AFB, N. Y.

Olving ... Mitchel AFB, N. Y.
6-10 Aug. Tennis ... To Be Announced
13-18 Aug. Golf ... Lackland AFB, Tex.
27-31 Aug. WAF Softball .. Chanute AFB, Ill.
10-14 Sept. Softball ... Maxwell AFB, Ala.
17-22 Sept. Baseball ... Scott AFB, Ill.

The Air Force also will host two of the 1956 Interservice Sports Competitions. They are tennis, 20-25 Aug., at a base to be announced, and golf, 27-31 Aug., at Eglin AFB, Fla. Other interservice events in which the Air Force will compete are boxing, track-field and swimming divided. ming-diving.

Teams also will participate in national competitions in boxing, basketball, bowling, volleyball, track-field, swimming-diving, tennis and softball.

Four Medics Studying Cold Weather Air Evac

Four medics from Donaldson AFB, S. C., will participate in cold weather aeromedical testing of the Fairchild C-123 assault transport at Ladd AFB,

The four officers are Capt. Mary Sutton, chief nurse; Capt. Wallace L. Boyd, plans and operations officer; S/Sgt. Leonard Jones, aeromedical technician, and A/IC Greene Campbell, aeromedical

Carswell Keeps Ahead In SAC Flying Safety

Carswell AFB, Tex., for the second successive year, captured top honors in SAC's command-wide flying safety competition, winning permanent possession of the 1955 Aircraft Accident Prevention

Campaign base-of-the-year trophy. The Ft. Worth, Tex., base has been accident-free since December, 1953. To accomplish this, all units based at Carsaccomplish this, all units based at Carswell, including tenant organizations and the 19th Air Division, flew upwards of 90,000 hours, during 1955 and 1956, without a major or minor aircraft accident. Gen. Curtis E. LeMay, SAC C-in-C, personally presented the award to Brig. Gen. John D. Ryan, USAF, 19th Air Division commander, at a formal parade and review ceremony at Carswell.

Two New ECI Courses

The Extension Course Institute, USAF, has activated two new courses, one in the Aircraft Accessories Maintenance career area, and one in the field of armament. They are 4251, Aircraft Hydraulic Mechanic, and Course 3231, Turret System Mechanic (B-47).

The former consists of three volumes covering "Hydraulics and its application to aircraft," "Aircraft hydraulic brakes, landing gear, and allied equipment," and "Aircraft hydraulic trouble shooting, inspection and maintenance."

Course 3231 is a three volume course on armament designed to train selected airmen in the isolation of unit malfunctions, maintenance of turret system units, The Extension Course Institute, USAF,

tions, maintenance of turret system units, preparation of turret system for operational missions, and completion of main-

Army Navy Air Force Journal 21 Jan. 1956 (Vol. 93, P. 629)

New Langley Assignments

Two personnel changes were announced recently at Langley AFB, Va. Col. C. V. Robinson was named deputy commander of the AB Group, and Lt. Col. Angustus M. Hendry was appointed commander of the Maintenance and Supply Group.

Colonel Robinson was former Wing ex-ecutive officer and director of personnel. He has been assigned to Langley since 1953 when he arrived from Elmendorf AFB, Alaska. Colonel Hendry was Wing AFB, Alaska. Colonet Hendry was Wing director of operation from July, 1954, to last November. He attended the Field Grade Officers' Fighter Weapons Course at Nellis AFB, Nev., in December.

The Military Budget. Despite the fact that the \$35.5 billion 1957 military budget, presented to Congress this week by President Eisenhower, exceeds by some \$972 million estimated expenditures for the current fiscal year, the public should not get the impression that this represents a proportionate increase in our fighting strength.

The fact is that most of these extra dollars will be absorbed by higher prices in such basic materials as steel and copper, while the increasing complexity of modern weapons has further boosted their manufacturing costs, The Air Force, for example, while still pointing toward its goal of 137 wings, will order only about 1,900 planes next year as compared with 2,300 in fiscal '56. The Navy continues its program with the addition of six warships. The Army will have its expected 19 divisions, but for the third year in succession will have no new money for procurement, being expected to use the unexpended balances left from the Korean war. The Marine Corps will keep its three divisions and three air wings as set forth in its legal authorization.

Most encouraging for the future is that portion of the President's statement in which he stressed what must be done to improve career attractiveness. Specifically, the President mentioned the problem of family medical care. The House Armed Services Committee has scheduled the openings of hearings on this vital subject next week. Survivors' Benefits was another need mentioned by General Eisenhower. A bill aimed at easing this problem passed the House last session, but has been long delayed in the Senate Finance Committee. Substandard family housing is another area touched upon by the President. Unfortunately no progress toward reduced rentals has been made here, nor is there any in sight at this time.

Of particular concern, too, is the augmentation program under which the number of regular officers authorized for the Services could be substantially increased. This measure has not yet been sent to Congress. It should be presented at the earliest possible moment. There are many thousands of Reserve officers on active duty who, both in their own views and in the view of their respective departments, are career officers. But there is now no authority to give them the permanent status they deserve. In the Army and the Air Force, less than 25 percent of the officers on active duty hold permanent Regular commissions.

The budget indicates further that there will be no substantial changes in the Reserve program. Nor are there signs of improvement in this vital area in the near future. Further reductions in active strength based on the assumption that sizable ready reserve forces will be available certainly will not be justified in the foreseeable future.

The '57 budget, taken in conjunction with the '56 appropriations and the forecasts for the next few years, would indicate a period of stability in military strength. Such a condition would be most desirable and economical in that it would permit long range planning and procurement. If there is a danger, it lies in the current talk for New Look II. It would be difficult, indeed, to have a dispassioned New Look at military requirements with the air beclouded with talk of the need of balanced budgets and the hope for tax cuts in an election year.

SATURDAY, 21 JANUARY 1956

Hurrah For Bold Response. The crystal clear importance of safeguarding military effectiveness by prevention of any further perils to career attractiveness has been demonstrated boldly and effectively in the Defense Department's reaction to those Hoover Commission proposals which have an impact on Service morale. Last week's issue of THE JOURNAL told how Secretary Charles E. Wilson and his associates are opposing efforts to ban Government payment for shipment of privately owned automobiles overseas. The Pentagon also has countered sharply worded allegations by the Hoover Commission relating to payment of the six-cent mileage allowance and to use of administrative aircraft for transporting Servicemen on leave on a space available basis.

Now, as reported in detail on Page 3, the Defense Department serves notice that it will resist

efforts to curtail commissaries and post exchanges or to force price increases. This forthright statement of position will be heartening to all Service families, who annually must face the threat of Congressional attack on such vital benefits as commissaries and post exchanges. With the Armed Services Committees of the Senate and House determined to oppose any fast-dealing action "rider" in the Appropriations Act which would hurt the Services, as related in last week's issue of THE JOURNAL, and with the Pentagon squarely on record with its unequivocal responses to the Hoover Commission proposals, military men and their families can look forward to 1956 with a feeling of confidence. During past years, it has frequently been necessary to point out weakness in Washington in protecting morale, therefore, THE JOURNAL is particularly pleased to bring to our readers the story of how the Defense Department and the Armed Services Committees are working together in the area of career attractiveness. This teamwork will pay off in better fighting forces at a reduced cost.

IN THE JOURNAL

10 Years Ago—To assure that all naval vessels, projected, building and on hand, not only meet, but anticipate wherever possible, the requirements of all phases of modern naval warfare, the Navy Department has set up a Ship Characteristics Board, to function under the Chief of Naval Operations.

50 Years Ago -The House Committee has completed its hearing on the Army Appropriation bill and will immediately begin to consider the bill with a view to reporting it to the House. When Lieutenant General Chaffee appeared before the committee one of the first subjects that came up for discussion was that of desertions from the Army. He considered that the best way to put a stop to the wholesale desertions from the Service would be to increase the pay of the enlisted men from \$13 to \$15. He stated most positively that he favored the re-establishment of the Army

90 Years Ago—Once more we beg to press upon the attention of Congress the subject of increasing the pay of the Navy. During many months, we have put so often all the possible points concerning this most palpable point of simple justice—independent of generosity—that it is unnecessary now to rehearse them. Enough to say that at present a Navy officer's pay is hardly enough to keep him in rations, clothing and equipment.

READERS' VIEWS

(Letters to the Editor must have author's name and address, but name will be omitted on publication if writer so states. Longer letters may be extracted for publication.)

Academy Not the "Easy" Road Editor, THE JOURNAL:

In your 31 Dec. issue I noted with some interest the letter from "Col. giving his comments on the granting of credit for pay purposes time spent at the Service Academies. I cannot help but feel that the Colo-I cannot help but feel that the colo-nel is either misinformed or biased or both and as a result does not have a true picture of the situation. For example, the statement that "The example, the statement that "The taxpayer has already provided for four years of expense free education to Academy graduates" is misleading. leading.

True, a cadet is paid while attend-

ing the Academy, however, there are certain expenses he must meet that are not well known. A cadet upon entering the Academy must \$300.00 of his own money for his initial issue of uniforms. While a cadet he must buy his own uniforms from his pay, pay for his textbooks and school supplies, and upon graduation he must have saved enough to pay for his officer's uniforms as he does not receive a uniform allowance upon graduation.

With regard to the "furor" that would be raised I feel that would be unfortunate and shortsighted. cadet is subject to Army Regula-tions and the Uniform Code of Mili-

tary Justice at all times. His life is regimented and disciplined to an extreme. How many of the Colonel's "furious" friends are now being paid for time spent in the Enlisted Re-serve, Officers' Reserve Corps or the National Guard? Surely, even the Colonel would have to admit that the day to day military life of a cadet is superior to one drill period a week and two weeks Summer camp a year for the development of an officer. for the development of an officer.
To carry the "free education" point further, if we are not to count time spent being educated by the government then why give credit for Officer Candidate Schools, Service Schools and time spent at civil schools?

Also there is another important set of facts that has been overlooked or omitted. In 1945 I received my appointment to the U. S. Military Academy. At that time I had two years' enlisted service during World War II with service overseas. As a result, at the time of my appointment I had two courses of action open to me. I could either go to the Academy or I could be discharged attend college under the GI Bill. Under the GI Bill I would have received more pay, been given free textbooks and school supplies, joined the ER and received drill pay, taken

ROTC and upon graduation have received a Regular Commission with four years' longevity and to top it all off I would have received a uniform allowance. In addition to all this I am certain that I would have had a much more enjoyable time.

The reason that I have outlined the two courses of action is that there are at least 1,000 Academy there are at least 1,000 Academy graduates in the service today who could have chosen the easier course.
I hope that the information I have

offered will give "Col, Arty" and his furious friends and associates a more reasonable view of the situa-tion. I cannot help but feel that if the Colonel had attended the Academy his compassion for the taxpayers would not be quite the same. If the group that would raise the furor has among it those officers given permanent rank at the end of World War II based chiefly on age and as a result were placed ahead of other officers with longer service, then I say that they should count their blessings and not be envious of what another group might get. Let us be a little charitable, I do not begrudge them their rapid promo-tion and short route to a Regular Commission so why begrudge me my Academy time?

CAPT., CE

President Eisenhower Tells Military Plans, Stresses "Career" Legislation Need

The following is the text of the President's Budget Message section pertaining to the Armed Forces. In this communication, the Chief Executive reterates the need for legislation to improve career attractiveness.

BUDGET expenditures for major national security programs in the fiscal year 1957 are estimated at 40.4 billion dollars, 903 million dollars more than estimated for the fiscal year 1956.

To build our military strength effectively and efficiently, peaks and valleys in security spending and in defense production must be avoided. I want to emphasize again the importance of a sound, long-range program which does not arbitrarily assume a fixed date of maximum danger. Military planning must combine present defense with the probable needs of a long period of unstablingers.

probable needs of a long period of un-certain peace.

During the past 3 years our defense program has been successfully reori-ented to reflect the changing nature of the threat to our security, the revised requirements brought about by the end of the Korean conflict, and the increas-ing availability of new weapons of un-precedented strategic and tactical im-

Policies and Concepts

This reorientation has been accomplished by developing our defense program on the basis of the following policies and concepts:

1. Gearing our defense preparations to a long period of uncertainty instead of to a succession of arbitrari-ly assumed dates of maximum danger.

2. Maintaining the capability to deter a potential aggressor from at-tack and to blunt that attack if it comes—by a combination of immediate retaliatory power and a continental defense system of steadily increasing effectiveness

3. Developing military forces which minimize numbers of men by making maximum use of science and technology.

4. Relating the number and degree of readiness of major units in the active forces to the practical limitations on the rapid deployment of major military forces from the United States immediately upon the out-break of aggression, and relying, for the remainder, on ready reserve

Utilizing military personnel on active duty with maximum effective-ness so as to hold to a minimum the number of men withdrawn from work in the civilian economy.

6. Concentrating our efforts on those forces which best complement the forces our allies are most capable of raising and supporting.

7. Maintaining a strong and expanding peacetime industrial structure, readily convertible to the tasks of defense and war.

The readjustment of our military forces in line with these principles is providing this Nation with the greatest military power in its peacetime history.
My recommendations for the fiscal year
1957 continue the same basic policies and concepts.

Manpower Targets

Manpower Targets

This budget provides funds for an average of 2,815,700 military personnel on active duty during the fiscal year 1957. Total military personnel on active duty will increase to 2,838,400 at the end of fiscal year 1957 from the number of 2,814,100 estimated to be on active duty at the end of the current fiscal year. In order to permit flexibility in planning and operations, a military personnel ceiling has been authorized for the fiscal year 1957, totaling 2,906,000, excluding Army cadets, Navy aviation cadets, and midshipmen. However, no increase will be made above the military personnel levels provided for in this budget except upon detailed justing the second of the fiscal year 1957. this budget except upon detailed justification to, and approval by the Secretary of Defense.

During the fiscal year 1957 there will be significant increases in certain com-bat elements, particularly units employing new weapons and units assigned to continental defense. These increases, together with the continued modernization of the weapons and equipment, will further enhance the combat power and effectiveness of our forces.

My recommendations for the military My recommendations for the military functions of the Department of Defense for the fiscal year 1957 will require congressional authorizations amounting in total to 35.7 billion dollars. Of this amount, it is proposed that 785 million dollars be provided by transfer of existing authority from revolving million dollars be provided by transfer of existing authority from revolving funds. Thus, the new authority proposed for 1957 is 34.9 billion dollars, which is 1.8 billion dollars more than the amount voted by the Congress for the current fiscal year. Expenditures are expected to total 35.5 billion dollars compared with a recent estimate. lars, compared with a present estimate of 34.6 billion dollars for the current fiscal year.

The increases in new authority to incur obligations and in expenditures in the fiscal year 1957 reflect, in large part, the cost of keeping our forces

Continued improvements in technology and weapons can be expected and they will tend to increase costs un-less offsetting savings can be found. Replacement, maintenance, and opera-

tions will require a high level of expenditures in the fiscal year 1957 and for years to come. Therefore, the management of our military programs must

agement of our minitary programs must have continuing study and scrutiny. Constant efforts must be made to plan carefully in advance, to increase efficiency, and to reduce costs and ex-

Military personnel costs for the active forces, which include pay allowances, subsistence, clothing, and related items, will be the same in the fiscal year 1957 as in 1956.

Retention of trained and experi-enced personnel is one of the most difficult problems confronting the armed services today. Every reas able measure must be taken to increase the attractiveness of a service career. Therefore, I am again recommending legislation to provide added incentives for the members of our Armed Forces. My principal proposals are for the uni-form provision of medical care for dependents, adequate and equitable dependents, adequate and equitable benefits for survivors, improved career inducements for medical personnel, and reasonable rentals for those occupying substandard Government quarters. This budget also provides for a proposed in-crease in the proportion of career officers to total officer personnel.

Transfer from Department of Defense re- volving funds to general accounts (pro-				
posed legislation)	****	****	****	—785
Total	35,532	34,575	35,547	34,907

The cost of operation and mainteance will rise in the fiscal year 1957, notwithstanding a decrease in the number of civilian personnel. Major reasons for the higher costs are (1) the greater number of air bases, radar sites, and other installations which must be supported in the coming fiscal sites, and other installations which must be supported in the coming fiscal year, (2) the sizable increase in the numbers of weapons and amount of equipment which must be operated and maintained, and (3) the growing com-plexity of new weapons and equip-

Shift In Emphasis

Major procurement and production expenditures in the fiscal year 1957 will be about the same as in the current fiscal year. However, there will be a shift in emphasis within this total in line with the policy of modernizing our forces. forces.

Approximately 6.8 billion dollars is estimated for procurement of aircraft, chiefly for the Air Force and the Navy. The accelerated production programs for the B-52 long-range jet bomber and the F-101 and F-104 supersonic inter-ceptors will be continued in the fiscal year 1957. In addition, there will be substantial procurement of the Navy's new supersonic F-8U fighter.

Expenditures for the procurement of guided missiles will be the highest in our history, increasing by more than one-third over 1956 and about double the amount spent for this purpose durates 1957. ing 1955.

Expenditures for electronic and com-Expenditures for electronic and communications equipment will remain high during the fiscal year 1957, to meet the needs for continental defense and our combat forces. Expenditures for ammunition, combat vehicles, trucks, and other major equipment items, will continue to decline because our requirements have now been met in large part. our requirem in large part.

New Navy Ships

This budget provides for continuation of the Navy shipbuilding program at a slightly higher level than in the fiscal year 1956 in order to carry forward the modernization of the fleet, most of which was built during World War II. In addition to those already authorized by the Congress, there is included in the present shipbuilding program for the proposed shipbuilding program for 1957 the construction of a sixth carrier of the Forrestal class, additional nuclear-powered submarines, guided-mis-sile destroyers and frigates, and an experimental nuclear-powered cruiser. experimental nuclear-powered cruiser. Provision is also made for developing a practical nuclear powerplant for future installation in ships of the large carrier class. Conversion of ships now in the fleet will be undertaken to provide them with additional nuclear weapons and with guided missile capabilities, and to permit them to operate modern high-speed aircraft.

Military public works will continue

MEMO For Journal Readers

THE NATION'S ATOMIC BOMBERS will spend more time in the air during 1956. Though details of SAC's global flight operations are classified, it can be reported that 16% of the bomber striking force was airborne around the clock last year. ONE REASON that this in-the-air activity will increase in the months ahead is the introduction of the B-52 to combat training operations. SAC's vigorous readiness program soared forward last year as aerial tankers transferred four gallons of jet fuel to bombers and fighters for every gallon in 1954; for the first time, SAC pilots chalked up more than a million hours of jet flying in a single year.

THE UNPRECEDENTED STABILITY in Army, Navy and Marine Corps manpower plans will permit these Services to move ahead with long-range personnel programs. Analysis of the fiscal '57 budget in companion with 30 June objectives shows that the estimated end-year strength differences are: Army—plus 200 men; Navy—minus 599; Marine Corps—plus 4,735, with a difference of only 150 officers. THE AIR FORCE SITUATION is different. Though it alone of the Services will be expanding the force level—from 131 to 137 wings—the Air Force average man-year strength for FY '57 curiously will be 23,450 below FY '56. Where the Air Force had won approval, both at the Pentagon and on Capitol Hill for 975,000 men for the 137-wing program, the revised end strength target for FY '57 is set at 936,000.

CONTROVERSIAL SKYCAV, the 82d Airborne Division's experimental reconnaissance unit which got the Army and Air Force in a row during Exercise Sage Brush, has been disbanded at Ft. Bragg, N. C. IT'S A GOOD BET that units similar to SkyCav will be organized for Army battlefield employment, though the Air Force will keep a wary eye on their doctrine, particularly as regards assault operations.

STRINGENT PENTAGON POLICIES regarding clearance of articles by military personnel which could be interpreted as not being "constructive" are being relaxed insofar as retired personnel are concerned. That's evident in the fact that Gen. Ridgway's articles ran into no clearance difficulties. SECDEF WILSON SUGGESTS that the security approval of the former CofS's story, compared to treatment accorded articles by other Service personnel, represents "the difference between being inside and out." IN THE ARMY, the consensus of the civilian and military leadership is that Gen. Ridgway's disputes are matters of the past and that the Army should pursue, as strongly as it can, the policy of winning understanding and support from Defense Department and higher authorities. Sec'y. Brucker and Gen. Taylor have advised subordinates that the Army has nothing to gain and much to lose by bucking superiors.

THE NAVY'S SHIPBUILDING PROGRAM (The Journal 14 Jan.) will have the advantage of influential support by Chairman Vinson (D-Ga.) of the House Armed Services Committee, who is a powerful advocate of fleet readiness. In addition, the ship construction will win support from legislators who represent coastal areas. Naval work now accounts for more than 40% of all activity in private yards. ADM. BURKE'S PLEA for atomicpowered and guided missile vessels (page 3) provided a flank-speed shove for the shipbuilding effort.

-2-

THERE'S A HINT in the President's Budget Message that there will be no change in the Air Force goal of 137 wings for the next three years. In asking \$5.8 billion in new authority for aircraft and related procurement (compared with \$6.2 billion in FY '56), the Pentagon said the new program "is designed to continue modernization of the 137-wing force with the latest and most advanced types of aircraft through 1959." SOME AIR FORCE CHIEFS have contended that Soviet airpower advances dictate a new look at the 137-wing strength. But a revision upward now seems doomed, particularly with guided missile advances in the next three years certain to result in revamping of the wing structure.

THE FARM SURPLUS PROBLEM, which provides growing headaches for politicians in an election year, will prove beneficial to military families overseas. Approval has been given for a ten-fold increase in expenditures of foreign currencies obtained from sale of surplus commodities for family housing overseas. In FY '57, DoD plans to use \$10 million for this purpose, intends also to obligate another \$9 million, compared with \$4 million in contracts this year. CONGRESS HAS AUTHORIZED a total of \$30 million for such projects, of which about \$20 million will be spent or obligated by June '57.

THOUSANDS OF BIRDS will be saved by an Air Force decision to place light filters on certain ceilometers. Studies by the U. S. Fish and Wildlife Service showed that birds migrating southward in the Fall are drawn toward the ceilometer beams at night. They become blinded, or lose their sense of direction and fall to the ground exhausted after circling the beam. ONE BASE was forced to cease operations temporarily when 25,000 birds perished during a single night. The filters will be used during migration periods to diminish the visible light of the vertical beam projected to determine ceiling altitude.

HIGHER PAY for Pentagon consultants is being asked by the Defense Department. It wants Congress to lift the limit from \$50 to \$75 per day.

DEBRIS DAMAGE to jet engines has Air Force maintenance experts upset. They estimate that premature removals of engines as a result of intake of foreign objects such as nails, pieces of wire, rags, metal scrap, nuts and bolts, may cost as much as \$25 million per year. Carelessness in keeping ramp areas spic and span is given as the damage source in over 40% of axial flow jet engine removals.

A K-9 PUNCH is being added to SAC, which is assigning sentry dogs to bolster security forces at key bases. At Plattsburg AFB, N. Y., where construction progress has been delayed by a strike, the arrival of 12 German Shepherd dogs provided an opportunity for an unchained press release. It said: "These highly trained sentry dogs whose viciousness will be a constant challenge to intruders represent the biological counterpart of the physicists' atom bomb, with built-in radar and sound detection apparatus. They are the greatest explosive force on four legs."

NEW YORK CITY CONTINUES to provide solid morale support to the Armed Services in the form of free tickets to varied entertainment activities. During 1955, Servicemen received 1,259,293 tickets worth \$1,666,744.27. The Inter-Service Ticket Committee is located at 132 W. 43d Street.

HOW TO GET INVESTMENT FACTS

about Mutual Funds

I am interested in investing through the Mutual Fund method and would like to start a personal investment program in one or more Mutual Funds.

Please send me detailed information on a Mutual Fund which (within market risk limits) seeks the objective best de-fined by: (Check one)

CONSERVATIVE	TYPE—Capital	conservation,	modest
income.			

- MIDDLE-OF-THE-ROAD-TYPE-Emphasis on current in-
- ☐ AGGRESSIVE TYPE—Emphasis on possible growth of capital with current income secondary.

I understand that full information will be sent to me at no cost or obligation when I mail this advertisement, and that this information is to guide you. Achieving objective is not assured.

of the services since 1922 Even though Ford was still making the Model "T" back in 1922

when USAA was organized, automobiles were already beginning to take on what was then referred to as the "streamlined look."

Horses then outnumbered automobiles but people had begun to talk about traffic problems and accidents were on the increase.

To meet the need of dependable low-cost automobile insurance for officers of the U.S. Armed Forces faced with their varied assignments, United Services Automobile Association was organized.

During all of its 33 years, USAA has been a non-profit organization, managed by active and retired officers. The savings made by pooling insurance funds of a preferred risk group are returned to policyholders in the form of liberal dividends. For many years USAA policyholders in the various States have enjoyed savings exceeding 40%. During 1954 nearly 6 million dollars in dividends were returned on 282,843 policies.

Membership in USAA is open to active and retired commissioned and warrant officers of the U.S. Armed Forces in the U.S.A., its possessions and territories; in Canada, Cuba, and the Canal Zone; in Japan, the Philippines, and certain U.S. military bases in the Pacific as well as Western Continental Europe.

With a USAA policy you enjoy a confident feeling of protection. You are insured with the oldest, largest and strongest non-profit organization serving officers of the U.S. Armed Forces with automobile insurance. You know that you are covered in numerous areas where our armed forces serve, and claims will be quickly settled, even in the most out-of-the way places.

When it's time to insure . . . be sure to give yourself the best . . . and save, too. Insure with USAA!

Your USAA insurance becomes effective as postmarked time of application, un a later date is specified.

New U.S. Concept for

TOTAL DEFENSE

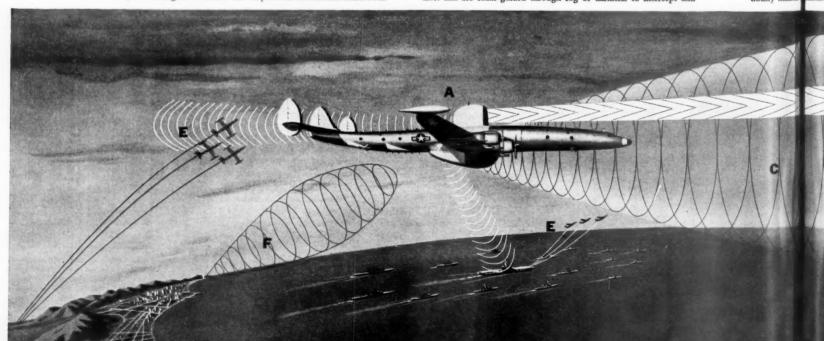

In this age of awesome airborne nuclear weapons, a vast umbrella of airborne electronics will safeguard our nation against sneak attack

BELOW-A WEAPONS SYSTEM IN ACTION. An electronics-laden Super Constellation early-warning plane (A), patrolling our outermost defense perimeter hundreds of miles from our shores and borders, from its high altitude can "see" beyond the horizon and detect both

high-flying and low-flying enemy aircraft (B). Using its powerful search radar (C) and height-finder radar beam (D) to pinpoint position of invaders, the patrol plane alerts our interceptors ($\tilde{\mathbf{E}}$), which swarm aloft and are radar-guided through fog or darkness to intercept and

destroy the an aircraft penet uously mann

LEFT-EARLY-WARNING RADAR PATROL. Designated the WV-2 by U.S. Navy and EC-121 by USAF, these radardomed Lockheed Super Constellations carry six tons of electronics and a 31-man crew. Super Constellations are ideal for this duty because of their famed all-weather stability and extremely long range.

ABOVE-ROCKET-FIRING STARFIRE INTERCEP-TOR. First of the almost-automatic all-weather interceptors, the Lockheed F-94C Starfire is an example of Lockheed's leadership in the design and development of airborne electronics. This deadly defender and other interceptors will soon be supplemented by—

Farsighted Pentagon planning and recent amazing technological developments by U.S. science and industry are rapidly making our nation's TOTAL DEFENSE system the most formidable in all history.

Lockheed's role in implementing our new Weapons System concept and in Systems management, is an important one. Thousands of Lockheed military aircraft, of nine widely different types, are already in service. Other advanced planes, missiles and electronic guidance devices are in production, undergoing tests or on the drawing boards at Lockheed. And Lockheed's pioneering leadership in design and development of airborne electronics will continue to contribute heavily to TOTAL DEFENSE.

with high-speed rockets or missiles. Any enemy barrier patrol areas would be detected by shore-pand Ground Observer Corps outposts contintic civilians helping to keep our nation free.

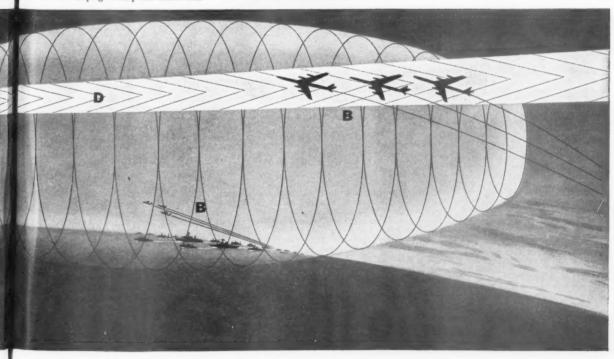

STILL-SECRET F-104 SUPERSONIC JET FIGHTER. (Photo not yet released.) A high-ranking USAF officer said of the F-104: "This is a fighter pilot's dream. We feel confident that it is the fastest, highest-flying fighter in the air, anywhere."

THREE PHOTOS AT LEFT show crew members of Super Constellation early-warning plane at work. (Top) Navigator plotting a fix; (center) observers at radar consoles plotting alti-tude, speed and course of unidentified aircraft; (bottom) fighter-director charting position and path of approaching aircraft.

Fairbanks and Anchorage Will Get 2d Div. Units

Units of the 2d Infantry Division now at Ft. Lewis, Wash., will be split be-tween installations in Fairbanks and Anchorage, Alaska, when the organiza-tion is transferred to the United States' northwestern outpost in a "Gyroscope' operation next July and August.

According to present plans, Ladd and According to present plans, Ladd and Eielson Air Force Bases, near Fairbanks, will become the home of the 9th Infantry Regiment, 15th Field Artillery Battalion, Co. A of the 702d Ordnance Battalion, Co. A of the 2d Engineer Battalion and Battery D of the 82d Anti-Aircraft Battalion Aircraft Battalion.

Aircraft Battalion.
The 23d Infantry Regiment, Headquarters and Headquarters Company of the Division, 2d Division Band, 37th Field Artillery Battalion, 2d Engineer Battalion (less Co. A), 82d Anti-Aircraft Battalion (less Battery D), 2d Quartermaster Company, 2d Military Police Company, 2d Reconnaissance Company and 2d Signal Company will be stationed at Ft. Richardson, near Anchorage.
All other units of the Division will remain at Fort Lewis.

main at Fort Lewis.

The "Gyroscope" movement will see 71st Infantry Division units of the same approximate size as 2d Division units involved in the movement to Fort Lewis from their present Alaska posts.

Veteran of Two Wars Is W. Va. Advisor

Elliott Budd Hopkins of Wheeling, has been named Civilian Aide to the Secretary of the Army for West Virginia.

During WW I, he served as an artillery officer in combat and received the Bronze Star and Purple Heart awards. In WW II, he was again called to active service, serving on active duty with the Army for 55 months. He was awarded five battle stars and Croix de Guerre.

As Civilian Aide for West Virginia, Mr. Hopkins assumes the position formerly held by Mr. A. C. Spurr of Fairmont.

Acting as an advisor to the Secretary Acting as an advisor to the Secretary of the Army, his sphere of interest and activity will include relationship of the Army to the civilian community of the State; interpretation to the community of the Army's mission and objectives, and interpretation of the community's victoria in convict of the community's viewpoint in service connected problems.

CONAC To Step Up Flying Program In Fiscal '57

The Continental Air Command plans step up its flying program during the 1957 fiscal year.

During the current fiscal period. CONAC is providing a total of 302,120 flying training hours for its Regular and Reserve Forces. This is broken down to 252,300 Air Reserve Flying hours and 49,820 hours for its Regular Forces.

However, while flying time provisions or CONAC's Regular Forces are expected to remain about the same during the 1957 fiscal year, Air Reserve fly-ing hours are expected to be increased by about 48,000, which would up CONAC's total flying training time to more than 350,000 hours, the highest in the Command's history.

mand's history.

By next June, 72 F-84E Thunderjets are scheduled for delivery to the Air Force Reserve and Air National Guard. Current plans call for 11 F-84's to be delivered monthly, alternating between the Air Reserve and the Air Guard

New Indorsements Set For Air Force OER'S

The Air Force, in an effort to improve officer effectiveness reports, has authorized additional indorsements in two situations.

A senior Air Force officer now may A senior Air Force officer now may add an indorsement when he possesses information which would add to the value of the report. The information may be either about an officer's performance or the completeness and impartiality of

or the completeness and impartiality of the report. This indorsement is optional. 2. In cases when neither the reporting nor indorsing signatory is an Air Force officer, or when additional indorsement by a USAF officer is required in order to add information about the officer's performance and the degree to which the report deviates from Air Force evalua-tion standards, an added comment is au-thorized. This will include an opinion of the manner in which the reporting and indorsing officials have complied with Air Force rating standards. This indorsement is required.

Federal Cataloging

Irederal Cataloging
Industrial and defense cataloging executives will hold a one-day briefing session jointly arranged by the Defense Department and the National Security Industrial Association on "Defense Contractors and Federal Cataloging" 26 Jan. in the main auditorium of the Labor Department in Washington, D. C.
The meeting the third and final series.

The meeting, the third and final series, will give a report on questions raised at the earlier sessions and also will familiarity industrial. ize industrial personnel with the latest information on defense contractors' participation in the cataloging program.

New Look "II"

From page 1—

House-passed survivor benefits bill is bottled up temporarily in the Senate Finance Committee. Hearings on reduced rental legislation have not been held in either branch of Congress.

Work is being speeded on a new aug-

mentation bill for Regular officer ap-pointments, as reported in a first page The Pentagon last week asked Con-

gress to vote legislation which would give some physicians and dentists on active duty as much as \$912 per year in added pay.

With the fiscal '57 budget pointing to

stabilized manpower and force level strengths for the next 18 months, the Joint Chiefs will have an opportunity to give greater attention to long-range planning. This look-ahead will be required also, in the view of Secretary Wilson, by the impact of atomic weapons, guided missiles, supersonic aircraft, new Army combat organizations.

There has been a feeling among many

Administration officials that advances in new weapons will permit a realignment and reduction in the size of the Armed Forces.

A major point of focus in the New Look II study will be to ascertain whether II study will be to ascertain whether such a cut can be made without jeopardizing national security.

Eight-Week Course At Chaplain School Makes Clergymen Also USAF Officers

By CHAPLAIN (LT COL) SILAS A.
MECKEL, USAF Director of Chaplain Training

SITUATED in the midst of a vast training activity at Lackland Air Force Base, Tex., is the United States Air Force Chaplain School, Through this

school passes a steady flow of young clergymen of many denominations as they enter upon their duties as Air Force Chaplains.

The Chaplain School is one unit of a "Complex" of schools comprising the Officer Military Schools, United States Air Force." The

Chaplain Meckel

other Schools are the Officer Candidate School, the Preflight School, the General Instructor School, the Recruiting School, and the Foreign Language School. The Commandant of the School Complex is Col. Leo F. Dusard, jr. Maj. Gen. John H. McCormick commands Lackland Air Force Base.

It is interesting to note that the young the school control of the school control of the school of t

clergymen are all quartered in one "bar-racks type" building during their eight week training period. The building con-sists of 28 "cubicles," to each of which two student chaplains are assigned alphabetically, regardless of race or de-nomination. Never once, in the School's history, has a student complained about this arrangement. Many students maintain that the experience of sharing com-munal life with clergymen of a wide variety of denominational backgrounds is the most vital part of their training at the School,
There is a definite philosophy which

underlies the Air Force chaplain train-

ing program. It is based upon three specific premises:

1. That all student chaplains are 1. That all student enaplains are fully trained clergymen before coming to the School. They are college and seminary graduates. Their formal pro-fessional education is complete. Most of them have had several years of cl-vilian parish experience.

2. That all students are fully ordained clergymen, and should therefore be regarded as mature professional men. Their training is adjusted to this level.

3. That all students have the unqualified endorsement of their specific denominations, are valid representa-tives of their individual churches, and are subject to the ecclesiastical discipline of their church.

The recognition of these premises dictates that the Chaplain School avoid even the implication that it is in the business of "training clergymen." Its mission is a "transition" function,—to introduce fully trained clergymen to the Air Force, fully trained clergymen to the Air Force, and to familiarize them with the new environment in which their knowledge and skills are to be applied. It does not teach Preaching, Counseling, Religious Education, as such. It does teach the clergyman, who is already trained in these functions, how to exercise them in his new military environment.

Beyond the adaptation of his professional skills to the military requirements, the student chaplain must be instructed in academic and military subjects pertinent to his new environment. Where as the "professional" type of subjects referred to in the preceding paragraph are taught by chaplains, the academic and military subjects are taught graph are taught by chapitains, the academic and militarry subjects are taught by qualified non-chapitain officers. These subjects include Military Leadership, Militarry Management, Military Justice, Intelligence, United States Air Force History, Customs and Courtesies of the Sorvice Air Force Supply, Military Brill. Service, Air Force Supply, Military Drill, and Physical Training. Each of these subjects is so "slanted" as to demonstrate its pertinence to the chaplain's place in the Air Force.

Of the 325 hours of training compris-ing the Course, approximately one-third are devoted to the professional adaptaare devoted to the professional adaptation courses; two-thirds to the academic and military phases. Again, the reason for these seemingly "inverse proportions" is that the chaplain is already a trained professional man. He has completed years of vocational preparation. He must now become families with his He must now become familiar with his chosen "Mission Field," the United States Air Force. During these eight weeks he must become an Air Force Officer as well as an Air Force chaplain.

All normal disciplines required of Air

All normal disciplines required of Air Force personnel are also required of the student chaplain. He makes up his own bed, polishes his equipment, cleans his room and "polices" the area surrounding his quarters. Promptness and thoroughness are constantly emphasized. Courtesy and tactfulness are primary re-

courtesy and tactumess are primary requisites,
Chaplain (Maj. Gen.) Charles I. Carpenter, the Chief of Air Force Chaplains,
makes an effort personally to visit each
class in the School. If he is unable to class in the School. If he is unable to do so, his Deputy, Chaplain (Brig. Gen.) Terence Finnegan, does so. This gives the new chaplains an opportunity to meet their "Chief" or his Deputy. Graduation speakers are selected from among the outstanding personalities who have contributed significantly to the development of the Air Force Chaplaincy.

Assisting me in this important mission of chaplain training are Chaplain (Mai.)

of chaplain training are Chaplain (Maj.) John M. Walsh, Roman Catholic; Chap-lain (Maj.) James B. McLeroy, Southern Baptist; and Chaplain (1st Lt.) Richard V. Goeres, Missouri Synod Lutheran. I am a Congregationalist.

Col. Dawson To Ind. U.

Lt. Col. William S. Dawson, Wing Com-munications-Electronics Staff Officer at Malmstrom AFB, Mont., has been assigned to Indiana University where he will study business administration.

After three semesters of study, Colonel Dawson will be assigned to one of the Air Force Commands.

Air Force Missile **Program Goes Ahead**

From page 1— crease in its program from \$485 million to

799 million.

The Army's guided missile spending plans call for a \$40 million increase in fiscal '57, from \$260 million to \$300 mil-

The Navy and Marine Corps guided missile spending will rise only \$5 million in fiscal '57, from \$172 million to \$177

ON THE NEW MONEY FRONT, the Defense Department wants Congress to vote \$1.776 billion in obligational authority for guided missiles during fiscal '57, compared with \$938 million for this year.

The Air Force would get twice as much new guided missile money as in fiscal '56—an increase from \$700 million to \$1.422 billion.

billion.

No new money for Army procurement is provided in the fiscal '57 budget, as has been the case for the past several years, but the Army will be able to obligate about \$500 million for guided missiles from carry-over procurement money.

The Navy, which was given \$238 million for guided missile contract awards this fiscal year, would receive \$354 million if Congress approves the Defense Department plan.

lion if Congress approves the Defense Department plan.

A large part of the \$1.532 billion asked by the Pentagon for Research and De-velopment will be used for work on guided missiles in all the Services, as shown in R&D stories in this issue.

Five Year Summary Shows Missile Growth

The acceleration of spending for guided missiles by the Armed Forces is shown in the following five-year recapitulation:

FY 52 \$ 169 million

FY 52 FY 53 \$ 295 million FY 54 FY 55 \$ 504 million \$ 569 million 917 million

Red Fleet Growth "Startling," Says CNO; "We Must Drive Hard" Congress Told

From page 3-

Fifth ESSEX Class-unconverted-(9 ships)

By early Spring, all of this class will be redesignated as support carriers for use in anti-submarine warfare. They can continue to perform this one function satisfactorily for about five years. They are not capable of operating high performance jet aircraft, including most of our present operating models. Even in their role as support carriers they will be replaced in the Active Fleet by the ORISKANY Class as they, in turn, become incapable of operating high performance aircraft. We may well find good employment for these carriers in limited anti-submarine warfare work, as helicopter ships, or aircraft transports.

When all presently authorized carwhen all presently authorized carrier construction and modernization is completed in 1959, we will have only 14 carriers fully able to operate the advanced naval aircraft of the day. This compares with the 15 attack carriers we are now authorized to operate and which we know are less than the and which we know are less than the initial requirements for general war. Further modernization to meet this deficit is not practicable. We cannot allow this deficit to increase. We cannot afford a holiday.

Some time between 1960 and 1965,

six of these fourteen carriers will have only limited ability to operate the new fighter and attack aircraft.

After 1966, we expect only the FOR-RESTAL and subsequent type carriers

to remain fully adequate.

We must therefore build a minimum of one new attack carrier per year. Only by such a timely and orderly program can we hope to provide for adequate strength in the 1960s. The time required to build ships is such that we will have to fight with the ships which are well in hand when the fighting starts ing starts.

Other New Ships

One nuclear powered guided missile cruiser of about 9000 tons—present engineering studies indicate approximately an 11,000 ton ship may be required to mount the missiles we desire.

Four guided missile frigates, each of Four guided missile frigates, each of about 4000 tons—equipped with both 5"/54 caliber guns and dual launchers for the Terrier guided missile, these ships will materially enhance Fleet Air Defense. They will also have excellent submarine detection capabilities.

Eight guided missile destroyers, each of about 3000 tons—differ from ones now building in that one 5"/54 caliber mount will be replaced with launchers for guided missiles.

Six nuclear powered submarines, each of about 3000 tons—will all be nuclear powered and will be of a new and advanced hull design. The first of this design was included in the FY 1956 program.

Two escort vessels, 1400 tons—are in addition to two in the FY 1956 program and will provide for a division of four low cost prototypes designed to be mass produced rapidly from non-critical materials.

One ammunition ship of about 8000 tons—will be capable of rapid replen-ishment with a speed of 20 knots.

Ishment with a speed of 20 knots.

Landing and service craft not to exceed 5000 tons—item of particular interest in this program is the construction of a 30-knot prototype hydrofoil landing boat. Speed is a requisite in future landing craft and this design holds great promise in meeting this requirement. It will replace the 8-knot discell-powered LCM diesel-powered LCM.

II. CONVERSIONS

One attack aircraft carrier of about 54,000 tons-will complete the program for conversion of the three MIDWAY

Two attack aircraft carriers of about 36,000 tons and one attack aircraft car-rier of about 37,000 tons—include such improvements as angled decks, steam catapults, modern arresting gear and other modifications to squeeze the ulti-mate use out of WWII carriers for op-erating the service proven planes and weapons of today.

Five guided missile light cruisers ach of about 12,000 tons—Three will e for Terrier missiles and two for Talos.

One guided missile submarine of about 1700 tons—is urgently required to augment the limited capability now programmed.

One amphibious assault ship of about One amphiblous assault ship of about 13,000 tons—conversion will be made from the CVE-105 Class hull, the WWII Escort Class carrier. The conversion will provide the carrier with the capability of handling helicopters for lifting troops over the beach in an assault amphibius landing. This together amphibious landing. This, together with the conversion of the USS THE-TIS BAY, a similar type carrier in a previous program, provides the nucleus of essential shipping for the vertical envelopment concept of amphibious warfare.

One attack transport of about 10,000 tons—converting a Mariner type hull into an attack transport.

One seaplane tender of about 10,000 tons—is included in order to provide a seaplane tender capable of servicing the P6M SEAMASTER.

Six radar picket escort vessels each of about 1500 tons and four ocean radar station ships each of about 4000 tons—required to meet the Navy's commitments for seaward extensions of the Mid-Canada Early Warning Line and the extension to seaward of the Contiguous Radar Coverage of the Continental Air Defense Program,

III. ADVANCE DESIGN AND PROCUREMENT

There is included in this program authorization to commence design and advance procurement for critical components of the power plant of a nuclear powered aircraft carrier. I have carefully considered this matter in connec-tion with the conventionally powered attack carrier included in this program. My investigation has clearly shown that the design of nuclear propulsion for a ship as large as an attack carrier cannot be completed in time for the ship to be laid down during Fiscal Year 1957. If we were to attempt to make the attack carrier in this year's program nuclear powered there would program nuclear powered, there would be an interval of 26 months between deliveries to the Fleet of the last condeliveries to the Fleet of the last conventional attack carrier (provided for in FY 1956) and the first nuclear powered attack carrier. This is a delay which we cannot afford. With design and advance procurement of long leadand advance procurement of long lead-time items proceeding in FY 1957, we can be assured of success in laying down a nuclear powered aircraft car-rier in 1958 and of having it join the Fleet approximately 12 months after the conventionally powered CVA at-tack carrier provided for in the FY 1957 program.

In conclusion, I would like to assure this Committee that this Shipbuilding and Conversion Program for FY 1957 forms an essential element of our deforms an essential element of our de-fense program for security of the United States. It emphasizes air power and guided missiles which is clearly in consonance with the stated policy of our Government. I earnestly hope that we will have the support of this Com-mittee in obtaining approval of this program and I strongly recommend the enactment of this Bill.

SERVICE FAMILY NOTES

MRS, DONALD A. QUARLES, wife of the Secretary of the Air Force, and Mrs. W. J. McNeil, wife of the Assistant Secretary of Defense, Comptroller, shown in Tokyo with members of the Board of the Far East Air Forces Officers Wives Club at the home of Mrs. Laurence S. Kuter, wife of the FEAF Commander. Mrs. Quarles and Mrs. McNeil, who accompanied their husbands on an official tour of the Far East, displayed a keen interest in the activities of the organization, especially in the fields of orphanage and hospital welfare. Left to right are: Mrs. Kuter, Honorary President; Mrs. McNeil, Mrs. Luther M. Bivins, Chairman of Hospital Parties, Mrs. Quarles, and Mrs. Cecil E. Petty, Club President.

MRS. Charles E. Wilson, wife of the Secretary of Defense, was an honor guest at a luncheon recently when more than 400 members of the Air Force Officers' Wives' Club of Washington gathered for their January meeting.

Guest speaker at the luncheon, held at the Army Navy Country Club, was Mr. Carlos Fallon, a former Columbian Naval Officer, former U.S. Air Force Naval Officer, former U.S. Air Force officer, and author of "A Variety of Fal-

Mrs. Reginald C. Harmon, club presi-Mrs. Reginald C. Harmon, club president, announced that Mrs. Richard O'Keefe and Mrs. Arthur Hurr were replacing Mrs. Walter I. Miller and Mrs. Thomas Holbrook as program chairman and secretary.

Among those at the head table were Mrs. Stuart Symington, wife of the Missouri Senator; Mrs. Carl Spaatz, wife of souri Senator; Mrs. Carl Spaatz, wife of the former Air Force Chief of Staff; Mrs. Trevor Gardner, wife of the Assist-ant Secretary of the Air Force, and Mrs. Thomas B. White, wife of the Air Force Vice Chief of Staff. Others were Mes-dames Max Boyer, J. N. Donohew, Wil-liam Eckert, W. W. Magness, J. M. Mc-Coid, and J. J. Morrow.

Women's Club To Have Korean Lunch-

Korean Lunch—
Dr. You Chan Yang, the Korean Ambassador, will be the speaker on 8 Feb., when members of the Transportation Corps Women's Club will meet for their guest luncheon at Ft. McNair. Guests will also be entertained with Korean songs and dances by Miss Moon Hi Kim. Included in the receiving line, which will form at 12 noon, will be Dr. Yang, Mrs. Paul F. Yount, wife of the Chief of Transportation, and Mrs. Evan M. Touseman, president of the Club.
Mrs. William L. Calhoun is chairman

Belvoir OWC Hears Mr. Bill—
A leather-bound book filled with colorful baby cards, and a three-tiered birthday cake with four candles shared the spotlight with Mr. Bill Gold, columnist for the Washington Post-Times Herald, at the Ft. Belvoir, Va., Officers' Wives' Club luncheon, on 10 Jan.
The cards were congratulatory messages received by Maj. and Mrs. John S. D. Eisenhower on the birth of their

daughter, Mary Jean, and the book was given to Mr. Gold, the Club's guest of honor, for Children's Hospital, Washing-ton, with five other books containing Christmas cards, collected by the Ft. Belvoir Junior Jango Guild. Mrs. Camille H. Du Val, Guild chairman, made the presentation, and introduced Miss Anne Parsons, president of the Guild and Miss Kathie Kirkpatrick, secretary.

On behalf of the Post Commander, Maj. Gen. Louis W. Prentiss, the Club president, Mrs. Walter H. Parsons, jr., also presented Mr. Gold with a check for fifty dollars, a Post Community Fund contribution from Ft. Belvoir personnel, to the Children's Hernital to the Children's Hospital.

Mrs. George E. Pickett was moderator for a lively question and answer period, with Mr. Gold under cross-fire.

Among those in attendance at the luncheon was Mrs. Stanley L. Scott, wife of a former Commanding General of Ft. Belvoir, and one of the Clubs founders, Mrs. Emerson C. Itschner with her mother, Mrs. Clarence Corey from Seattle, Wash., and Mrs. Vernon McKee from St. Louis, Mo., was with her daughter, Mrs. Carrell A. Clem, jr.

Wives of the Engineer Officers' Adams.

Carrell A. Clem, jr.

Wives of the Engineer Officers' Advanced Class at the Engineer School were responsible for the attractive birthday decor and the luncheon arrangements. Mrs. Thomas W. Dale, chairman, was assisted by Mesdames Walter Bachus, Elmer Regn, Richard Connell, Gerhard Schulz, David Carter, Joe Palmer, Claude Roberts, Frederick Irving, William Huber, Tom H. Reynolds, Edward Stefanik, William E. Reed, James Neil, Thomas Blair, James Thompson, Malcolm Johnson, Maury Cochran, and Anthony Pecoraro.

Mrs. Norstad NATO College

The luncheon for the Ladies Group of the NATO Defense College in Paris, France, was held 11 Jan., when honored guests were Mrs. L. Norstad, wife of General Lauris Norstad, USAF, Air Deputy to the Supreme Allied Commander, Europe, and Lady Catherine Steel, wife of Sir Christopher Steel, U.K. Permanent Representative to NATO. The distinguished guests were received by Mrs. Marie Byers, wife of Lt. Gen. C. E. Byers, USA, Commandant of the College.

Army Navy Air Force Journal 21 Jan. 1956 (Vol. 93, P. 642) | Medical Wives Hear Navy Surgeon General Stress Their Role In "Career" Problem

RAdm. B. W. Hogan, MC, USN, Surgeon General of the Navy, last week ad-dressed the Navy Medical-Dental Wives' Club at a luncheon meeting at the Naval Medical Center, Bethesda,

Admiral Hogan said in part:

"I doubt if there has ever been a time in the history of the Medical Depart-ment of the Navy when the wives of our medical and dental officers played our medical and dental officers played a more important role than at the pres-ent time. We, as officers, realize—and perhaps we even take for granted at times—the countless things you do which make us ever thankful that we have a family and a home which serves as a place of refuge from the worries and problems with which we are conas a place of fetage from the workers and problems with which we are con-stantly confronted.

"Your ability to accept the adverse conditions inherent in the life of a mili-

conditions inherent in the life of a mili-tary officer is a great tribute to your understanding manner and uncom-plaining attitude. When I referred a moment ago to the importance of the role you played today, I was thinking

of the difficulties our Department faces in maintaining an adequate number of career medical and dental officers to effectively discharge our responsibili-

"Many times when an officer decides that he must leave the Service, he gives as his reason the fact that his wife prefers the stability that goes with civilian practice. I know that those of you who have been in the Service for some time

have been in the Service for some time have done all you can to make the wives of new officers feel that they belong.

"It is very difficult for a medical or dental officer to perform his duties to the best of his ability unless his wife and family are happy.

"If you are contented as the wife of the of the officers. I have you will try

one of our officers, I hope you will try to spread your enthusiasm among the wives of the younger officers and assist them in understanding the pride which all of us feel in the job we are doing for our country, and also to convey to them the many rewarding features of military life which we have come to

Army Wife Is Vital Factor In Husband's Career, Mrs. Harper Tells Benning Club

FT. BENNING, GA.—The ever-broadening role of the Army wife was discussed by Mrs. Joseph H. Harper, wife of The Infantry Center commander and honorary president of the Fort Benning Woman's Club, at the group's 10 Jan. luncheon in the Main Officers' Mess.

Officers' Mess.

Mrs. Harper was introduced by Mrs. Edward C. Coffin, jr., Woman's Club president.

"Our husbands are at Ft. Benning for professional advancement and we need to know how to help further their advancement. The Army wife always will be a vital factor in the success her husband attains," Mrs. Harper said.

"Today's Army is converted.

"Today's Army is composed of more married men than ever before," she stated, noting that 80 per cent of the officers and 32 per cent of the enlisted men have wives. She pointed out that the average officer has a permanent change of station every 18 months and that U. S. Army officers are serving in 73 foreign countries. The speaker stressed the need for adaptability. "Poking fun at other people's customs is bad manners as well as bad foreign policy," she added.
"Good taste and good manners are always applicable. The Army tends to be conservative, Any avoidance of familiarity on formal occasions is wise," the speaker mentioned. "Character is the prime requisite for leaders in the Army, There is no place for smug-

ers in the Army. There is no place for smug-ness or abuse of privilege," she said. Elaborate table decorations carried out the

Elaborate table decorations carried out the speaker's theme on the Army wife. Entitled "Stairway to the Stars," the tables depicted "Courtship and Marriage." "First Station," "First Baby," "War," "Occupation," "Duty at The Infantry School," "The Long Move," "Promotion," and "Retirement." Under the direction of Mrs. John K. Roberts, hospitality chairman, the decorations were arranged by Mrs. David G. Wilson, Mrs. J. W. Medusky, Mrs. Andrew Nisbet, Mrs. Rex Jennings, Mrs. Robert Trost, Mrs. A. G. Nelson, Mrs. Frank Plerson, Mrs. V. C. DeVan, Mrs. E. C. Huff, Mrs DeBow Freed, Mrs. Alden P. Shipley, Mrs. John

MRS. JOSEPH H. HARPER, (left), wife MRS. JOSEPH H. HARPER, (left), wife of Maj. Gen. Harper, Infantry Center commander, Ft. Benning, Ga., spoke on the role of the Army wife at the January luncheon meeting of the Woman's Club. Mrs. Harper, honorary president of the group, was introduced by Mrs. Edward C. Coffin, jr., (right), Woman's Club president.

Dalton, Mrs. William Duncan, Mrs. Harry Temple, Mrs. William Cline and Mrs. Thompson Colkitt.

were wives of members from three NATO countries: Mrs. Notaras, from Greece, Mrs. Schulze, from the Netherlands, and Mrs. van Wylich-Muxoll, from Denmark. This will be the last ladies luncheon during Course Number 8 of the College. The students and their wives depart for their various countries at the end of the course in February.

Anne Taber Reaches Finals-

Anne Taber, 14-year-old daughter of Col. and Mrs. Alden P. Taber, reached the finals in the Girls National Indoor Tennis Tournament at Longwood Cricket Club, Brookline, Mass.

Club, Brookline, Mass.

Anne, one of the top-seeded girls in New England, competed in the 15 year-old-and-under group. She was teamed with Sue Counihan of Cambridge, Mass., in their final match 30 Dec. The pair were defeated for the championship by Nancy O'Connell of Chicago and Gay Miller of LaGrange, Mo.

As a 9-year-old Anne won the best in age group award in her first tourna-

ment at Aberdeen Proving Ground. Since she has been in the Boston area, where her father is commanding officer at Watertown Arsenal, she has played in the Junior Wightman Cup Tournament, the Oyster Bay-Bar Harbor Tournament, the Tedesco Tournament on the North Shore and the New England Girls Tournament.

Honor Col. & Mrs. Ellis— Brig. Gen. and Mrs. William J. Thompson entertained the officers and ladies of son entertained the officers and ladies of the Artillery Branch, Career Manage-ment Division, for cocktails on Saturday, 14 Jan. in the Gold Room of the Ft. Mc-Nair Officers' Club, in honor of Col. and Mrs. Walter F. Ellis. Colonel Ellis, who is Deputy Chief of the Artillery Branch, is leaving soon for a new assignment.

Chemical Corps Wives Club Hold Luncheon-

The Chemical Corps Wives Club luncheon was held on 11 Jan., at the Army and Navy (Town) Club, with Mesdames William M. Creasy and Per K. Frolich as

Lt. Gen. and Mrs. Floyd L. Parks are beginning the move from Ft. Meade to the home they will occupy on Upton St., Washington, D. C., a house Mrs. Parks purchased while the General was away World War II, but one they have not

vet occupied.

General and Mrs. Parks will give a series of farewell parties next month. The Second Army command will give a reception 27 Feb. following the retreat parade in honor of the Commanding General. Gen. and Mrs. Parks will be honored by a buffet supper to be given by the Chief of Staff, Maj. Gen. and Mrs. T. N. Griffin, and Mrs. Parks will be the guest in compliment to whom the Offi-

guest in compliment to whom the Om-cers' Wives Club are to give a tea, St. Valentines Day, 14 Feb. Maj. Gen. Robert Pierce, deputy to General Parks will be acting command-ing General of the Second Army until the arrival of Lt. Gen. Charles E. Hart

in April.

Coffee Honors Chaplains' Wives— Mrs. Wallace Hale and Mrs. Ottomar H. Tietjen, whose husbands are assigned to the Office of the Army Chief of Chap-lains, Mrs. Max Gilmer from Ft. Belvoir, Ya., Mrs. John E. Foster and Mrs. Walter G. McLoud from Walter Reed Army Medical Center, were guests of honor at a coffee given by Mrs. Kenneth L. Ames and Mrs. Wayne L. Hunter, 19 Jan., at the latter's Arlington, Va. home. Mrs. the latter's Arlington, Va. home. Mrs. Frank A. Tobey, wife of the Deputy Chief of Army Chaplains, poured.

Engineer Officers' Wives' Club-

Engineer Officers' Wives' Club— Mrs. Ivy Baker Priest, Treasurer of the United States, addressed the mem-bers of the Engineer Officers' Wives' Club of Washington, D. C., at a luncheon at Ft. McNair on 16 Jan. Mrs. Priest projected the attending members into the year of 2006 giving her predictions of what women will be doing in Govern-ment in the next 50 years. She said that 50 per cent of the congressmen will be 50 per cent of the congressmen will be women, at least three Supreme Court Justices will be women, and the Office of Vice President of the United States

of Vice President of the United States will be held by a woman.

The special guest of honor at the luncheon was Mrs. Wilber M. Brucker, wife of the Secretary of the Army, and other honor guests were Mrs. Carter B. Magruder, Mrs. Clyde Eddleman, and Mrs. Louis W. Prentiss.

Mrs. W. O. Pell of Ogden, Utah, attended the luncheon as a special guest of Mrs. Priest.

Mrs. George Walker and her committee decorated the tables with "money" trees, gilded tree branches adorned with gold coins.

gold coins.

EVANS-HALE -- Miss Paula Patricia Hale, daughter of Mr. and Mrs. Paul Hale of El Paso, Tex., was married to Lt. John Calvin Evans, on 27 Dec., at the Asbury Methodist Church, El Paso. The bride-groom is the son of Chaplain (Col.) and Mrs. Luther W. Evans of the Army War College, Carlisle Barracks, Pa.

The Reverend Ewart G. Watts and

Chaplain Evans officiated at the after-

noon ceremony.

Given in marriage by her father, the bride wore a mink-brown suit of silk wool, designed with a three-quarterwool, designed with a three-quarter-length fitted jacket and a straight skirt. Her hat was of beaded bronze satin, and she carried a white Prayer Book with a white orchid marker.

Miss Diane Jensen was her maid of

honor and only attendant, and Lt. Winston K. Evans served as his brother's best man.

The bridegroom has recently pleted a course at the AAA&GM School. Ft. Bliss, Tex., and will report soon to his new assignment with the 38th AAA Missile Bn., at Norfolk, Va., where he and his bride will make their home.

SMITH-BURKHART — Mr. Salith-Burkhart — Mr. Howard
John Burkhart of Washington, D. C., announces the engagement of his daughter, Diane Marie, to Cadet Lowell Gene
Smith, USMA '56, son of Mr. and Mrs.
Joyce Lowell Smith of LaSalle, Ill.
Miss Burkhart was graduated from
Trinity College, Washington,
The wedding is planned for 9 June

The wedding is planned for 9 June.

FT. BELVOIR, VA .- Presentation of the scrap book made by the Junior Jangos of Ft. Belvoir, to Mr. Bill Gold of the "Washington Post and Times Herald," for the Children's Hospital of Washington. From 1 to r are Mr. Gold; Miss Anne Parsons, president of the Jangos; Miss Kathie Kirkpatrick, Junior Jango secretary; and Mrs. Camille H. DuVal. chairman of the Junior Jango Guild.

OFFUTT AFB, NEB. - Looking over Emergency Kits prepared and donated by the Offutt NCO Wives Club is Mrs. George Shayka, left, and Mrs. W. L. Gray, wife of the Offutt Commander and De-pendents Assistance Coordinator. Mrs. Shayka is a member of the Club committee which presented the kits of house-hold items to be used by newly arrived families until a permanent house is obtained

Notes from Posts, Stations, and Bases

Mrs. Laitos Heads Club

Mrs. Laifos Heads Club

BEGLIN AFB, FLA. Two major events
occurred at the January luncheon of the
Officers' Wives Club. Mrs. Gordon Baker
announced her resignation as president of the
Club due to her husband's transfer orders.
Then, in accordance with the constitution,
she hended the gavel, symbol of the presidency, to Mrs. Jan Laitos, ist vice-president.

The interest of the Officers' Wives Club in the March of Dimes was evident as Mrs. Laitos presented a check for \$1002.10 to Mr. John Strickland, Okaloosa County Chalrman for the March of Dimes. This amount was raised by special projects.

Mrs. Laitos presented Mrs. Baker a lovely silver-chafing dish to express appreciation of her leadership during the past six months.

recanning dish to express appreciation of her leadership during the past six months. Two hundred and fifty-four members and guests attended this luncheon which was sponsored by the wives of the 3205th Drone Group under the leadership of Mrs. C. C. Woolwine. Blue crutches and March of Dimes envelopes were placed at each place by Mrs. Theodore Jankowski and her committee. Mrs. Louis Tovey acted as mistress-of-ceremony for the short variety show which the Drone Group presented. "The Jackettes" (Capt. and Mrs. Edward Jackett) gave their interpretation of the mambo. Mrs. C. C. Woolwine sang "There is no Tomorrow" and a parody of "Maggle." A bit of Hawail was imported to Eglin via the rapid hula of the "Hawailan War Chant" by Mrs. Robert Graham and Capt. Philip Gardner.

It was voted to donate \$200 of the Thrift Shop profits to the new Fort Walton Beach hospital.

Marksmen Organize

Marksmen Organize

FT MYER, VA. A distinguished list of
Army marksmen from the Military District
of Washington meeting at Ft. Myer, Va.,
have officially organized an NRA chartered
senior class rifle and pistol club to be known
as the Fort Myer Rifle and Pistol Club.
Formation of the club brings to fruition a
desire of Maj. Gen. John H. Stokes, jr., NDW
commander, to organize crack local rifle and
nistol shots

pistol shots.
At present, the group has limited its mem-At present, the group has limited its membership to members of the Armed Forces on active duty. Future plans call for expansion to include military families and certain civilian groups. Range facilities for practice and match firings will be located at Ft. Myer's South Post.

Myer's South Post.

The club chose as officers:
Col. Henry F. Ross, president; Lt. Col.
Ellis Lea, vice president; Lt. Col. Anthony
M. Kamp, jr., treasurer, and Lt. Col. Charles
R. Church, secretary, Other officials named
were: Lt. Col. Thomas J. Sharpe, executive
for pistol, and Lt. Col. Warren P. Davis,
executive for rifle.
The next meeting will be held.

The next meeting will be held 26 May at Patton Hall Annex, Fort Myer.

Mrs. Weller Elected

HICKAM AFB, T. H. Mrs. Richard C. Weller was elected president of the Hickam Officers' Wives Club at the biannual elections. Mrs. Weller is the former Helen Norris, daughter of Col. George B. Norris, USARt. Married to Col. Richard C. Weller, USAF they came to Hickard from the Air

rls, daughter of Col. George B. Norris, USA-Rt. Married to Col. Richard C. Weller, USAF, they came to Hickam from the Air University at Maxwell, Alabama. Other Executive Board members elected were Mesdames M. P. Hammond, 1st Vice President; R. L. Reuche, 2d Vice President; W. G. Dodd, 3d Vice President; W. L. Shea, Recording Secretary: J. M. Barber, Corre-

President; R. L. Reuche, 2d Vice President; W. G. Dodd, 3d Vice President; W. L. Shea, Recording Secretary; J. M. Barber, Corresponding Secretary; L. W. Griffith, Treasurer and Ardeen Sanders, Vice Treasurer.

After a delicious luncheon, the outgoing president, Mrs. C. E. McBrayer called the meeting to order. At the conclusion of business, Mrs. Sory Smith, Honorary President, presented Mrs. McBrayer with a beautiful silver footed vegetable dish on behalf of the Wives' Club. Executive Board members each received a framed certificate, in recognition of the different offices held, signed by the President, the Honorary President, the Commander Pacific Air Force Maj. Gen. Sory Smith, USAF, and Commander Pacific Division, MATS RAdm. W. D. Johnson, USA.

Mrs. McBrayer also thanked committee chairmen and their members, who were presented with certificates and leis respectively, for their outstanding achievements on behalf of the club.

Hostesses for this luncheon were the wives

of the officers of the 57th Weather Reconnaissance Squadron, under the general chair-manship of Mrs. William A. Pope. Mrs. Marius Autrey had charge of menu plan-ning, and the decorating committee was headed by Mrs. Leo Korpanty.

Mrs. Coutts Is Greeted

FT. JACKSON, S. C. Mrs. James W. Coutts was honored at a tea by the Women's Club when Brigadier General Coutts, USA, arrived recently to assume duties as assistant 101st Airborne Division commander.

In the receiving line with Mrs. Coutts were sponsors for the event, Mrs. F. S. Bowen, jr., wife of Major General Bowen, Fort Jackson and 101st Airborne Division commander, and Mrs. George A. Bone, wife of Lt. Col. Bone, USA, Fort Jackson G-1 and president of the Women's Club.

USA, Fort Jackson G-1 and president of the Women's Club.

Prominent Columbians including Mrs. George Bell Timmerman, jr., wife of South Carolina Governor Timmerman, attended the event at the Legion Lake Officers' Club. Also attending to greet Mrs. Coutts were Mrs. J. Clarence Dreher, fr., wife of Columbia, S.C., Mayor Dreher; Mrs. James C. Dozler, wife of South Carolina Adjutant General Dozler, and Mrs. Thomas F. Maxwell, wife of the Columbia City Manager. Special guests included Navy and Air Force wives from the University of South Carolina.

Mrs. Reynolds Condon, wife of Ft. Jackson chief of staff, Colonel Condon, was chairman of the event, Mrs. Walter Twineham, wife of Lt. Colonel Twineham, Surgical Services, and her committee served refreshments; Mrs. W. D. Graham, wife of Colonel Graham, Post Surgeon, was chairman of the receiving committee; Mrs. Frank S. Waring, wife of Colonel Waring commander of Headquarters Special Troops; Mrs. Harold W. Mott, wife of Colonel Mott, 501st Airborne Infantry Regiment commander, and Mrs. Alfred K. duMoulin, wife of Colonel duMoulin. Division Artillery commander, were in charge of decorations, Mrs. Elmer Hinman, wife of Colonel Hinman, Post Dental Surgeon; Mrs. Paul Bryer, wife of Colonel Bryer, 516th Airborne Infantry Regiment commander, and Mrs. John Frick, 101st Airborne Division coordinator of training, were also committee chairmen.

"Kansas Day" At Riley

Wansas Day" At Riley

FORT RILEY, KANS. The Fort Riley
Woman's Club held their monthly luncheon
and meeting 9 Jan. The theme centered
around "Kansas Day," which is 29 Jan.
Table decorations included covered wagons,
horses, hurricane lamps, wheat and sunflowers, all or any of which might symbolize
Kansas.

Ladies of Aggressor Cadre were responsible for the clever decorations. Mrs. Norman W. Kubler was in charge of the committee, who included Mrs. Edwin Smith, Kenneth Halverson, Lester Brady, L. V. Asher and Park Jenkins

Sherry was served by Mrs. John J. Welsh, and Mrs. Ira Walker.

The name tag table was presided over by irs. Fayette G. Hall and Mrs. Charles E.

Entertainment for the afternoon was can-celled when Dr. Earl Davis, who was sched-uled to give some literary interpretations became ill. The ladies entertained themselves

with bridge and canasta. Bridge winners were Mrs. R. A. Nicholson, high, and Mrs. O. T. Norton, 2d high. Winning canasta part-ners were Mrs. F. P. Valear and Mrs. C. F.

Klopp.
Mrs. John S. Guthrie, wife of the 1st Division Commander, was welcomed at her first meeting with the club.

1500TH GRADUATE

1500TH GRADUATE.
FT. RUCKER, ALA. The Army Aviation School's Department of Academics has graduated the 1500th student from the helicopter maintenance course, started in 1953.
Maj. Wayne Hanselman, USA, deputy director of the department, presented a diploma to SP3 Joseph A. Pahl, currently assigned to the 1st Guard Company, U. S. Disciplinary Barracks, Ft. Leavenworth, Kans.

"American Folklore"

S. servicemen living on the German economy, held its first formal meeting recently at the Flaming Sword Service Club in Heidelberg. The club hopes to further American-German relations and also to assist new arrivals in Germany in locating suitable housing and in becoming adjusted to their new surroundings. Shown are (left to right) Mrs. Helen Rubinoff, club secretary; Mrs. Glenda Orchant, club chairman; Mrs. A. C. McAuliffe, wife of General Anthony C. McAuliffe, commander-in-chief of USAREUR, and Mrs. John F. Uncles, wife of Maj. Gen. J. F. Uncles, Chief of Staff, USAREUR.

Start 2000 Units At Polk In Spring

FT. POLK, LA. Construction of 2000 family-type housing units will begin this Spring, according to Lt. Col. W. J. Pritchard, USA, Fourth Army project officer for Capehart housing.

housing.

The units will be of one, two and fourfamily types and will offer either two, three
or four bedrooms.

Officials said the breakdown between offi-

Officials said the breakdown between officers and enlisted men will depend on Armywide percentage figures and regulations. The larger portion of the units, however, will be earmarked for NCO's.

Location of the units will be a 2500-acre tract of land on the reservation, just north of the South Fort cantonment area. It will be generally bounded on the west by State Highway 118 and on the east by the military route from North Fort to Leesville.

THREE FIRST ARMORED DIVISIONS Combat Commands received new commanding officers within the past week as part of routine assignment changes. Welcomed into Combat Commands "A," "B" and "C" respectively were Col. Walter S. Schlotzauer, USA, former III Corps G-4 (Supply) Officer at Ft. Hood, Tex.; Col. Glenn F. Rogers,

USA, who had been commanding officer of "Old Ironsides" Support Command, and Col. Frederick M. Sperry, USA, former assistant G-1 (Personnel) of III Corps, Ft Hood, Tex.

The former combat commanders have already left Fort Polk for new assignments. They are Col. Lawrance V. Greene, USA, CC "A," Col. Jack A. Boulger, USA, CC "B" and Col. Loveaire A. Hedges, USA, CC "C."

INDUSTRY IN DEFENSE

AF Boosts Matador Missile Orders

The Air Force has placed additional orders for a "substantial quantity" of the TM-61 Matador tactical missile with the Martin Company.

The Matador, about the same size and weight of a jet fighter, has been called the "bargain basement" missile by Air Force officials. New manufacturing techniques have resulted in the Matador being the lowest cost in dollars per airframe-pound being produced for the Air

Much of the Matador's wing and tail. as well as some interior structure, is composed of an aluminum honeycomb material to which the covering skin is bound by an adhesive material.

Wing construction, using semi-skilled workmen, is four times as fast as the conventional fabrication process. Adhesive bonding eliminates drilling and tapping of hundreds of bolts in joining wing sections

The Matador was the first missile to be ordered into production, and the first missile to be placed on operational duty Air Force tactical missile squadrons

Here is the releasable information on the Matador:

Type	Tactical Missile
Service Designation	
Length	39.6 feet
Diameter	54 inches
Wingspan	28.7 feet
Altitude	over 35,000 feet
Speed	over 650 MPH
Propulsion	. Allison J-33-A-37
Project Began	1946
Production Began .	January 1951

New Data Processing Machine At Aerophy. Lab.

An advanced type of electronic data processing machine is being used at the Ordnance Aerophysics Laboratory, Tex., which is operated for the Navy Bureau of Ordnance by the Convair Division of General Dynamics Corporation

The new equipment, an IBM 650 Magnetic Drum Data Processing Machine, contains a "memory" unit capable of storing up to 20,000 digits and is able to do mathematical calculations rapidly.

It will replace several older machines and also will perform complicated data and also will perform complicated data reduction problems quicker than the older machines. This will materially speed up the process of supplying the data and other information to the engi-neers for use in designing missiles and airplanes.

The two most significant features of the machine are its ability to check the accuracy of its answers, and its magnetic drum memory, which stores as tiny magnetized spots on the surface of the drum established data and data used during calculations. Each group of spots has an "address," so that any number can be called for and made available when need-ed in less than three-thousandths of a second.

To New Rheem Post

L. W. Mullane has been appointed assistant to the general manager of Rheem Manufacturing Company's Government Products Division.

Mr. Mullane joined Rheem in 1955 following his separation from the Navy, in which he served with the rank of comwhich he served with the rank of commander. He entered the Navy in 1941, and in 1945 was selected to take post graduate studies at California Institute of Technology, where he majored in jet propulsion and received his master of science degree in aeronautical engineering. He served on a subcommittee of the National Advisory Committee for Aeronautics for aviation fuel, rocket engines and lubrication and wear. Mullane also was a consultant for the logistics planning group of the Joint Chiefs of Staff.

Gen. Bean Is Honored By Management Groups

Maj. Gen. Emmett J. Bean, USA, Com-manding General of the Army Finance Center in Indianapolis, Ind., has received recognition from two different management groups.

ment groups.

He was named the Indianapolis Management Man-of-the-Month for January by the local chapter of the Society for the Advancement of Management, and was made an honorary member of the National Management Fraternity, Sigma Lett. Firstlern at the University of Illinois.

Iota Epsilon, at the University of Illinois. Thomas J. White, Chapter President of the Society for the Advancement of Management, said General Bean was chosen because of his management leadership in the reestablishment of the Finance Center in its new permanent quarters. He also said that the General was re-sponsible for providing for the use of the most modern business machines, and for achieving an outstanding record of economy and effectiveness in the managementment of the huge financial agency.

mentment of the huge linancial agency.
The Army Finance Center was moved
from St. Louis, Missouri, into a modern
new building at Fort Benjamin Harrison,
Ind., in 1952-53. It is the "hub" of the
Army world-wide network of Army finance and accounting offices responsible
for will tray, you accounting allotment for military pay accounting, allotment administration, issuance of retired pay checks, and payment of Army and Air Force Transportation accounts. Its work force approximates 5,000 personnel.

Brazil Gets C-82s

The first three of 12 C-82 Flying Box-cars slated for operation by the Brazilian Air Force have been officially accepted at the Fairchild Aircraft plant, Hagers-town, Md., by Air Brigadier Ignacio de Loyola Daher, air attache of the Brazilian Embassy.

Following acceptance, the trio of overhauled and modernized troop and cargo transports took off for South America, flown by Brazilian crews which have been undergoing flight and maintenance training for the past several months.

Armed Flight Trainer Shown By Temco

Development of a dual-purpose military trainer for primary flight and armament instruction has been announced by TEMCO Aircraft Corp., Dallas, Tex.

I. Nevin Palley, TEMCO's Vice-President-Engineering, said the high-perform-

ance aircraft was designed and developed company expense to meet the train-ig requirements of foreign military

ing requirements of foreign military services. Demonstrations for military representatives of several governments already have been scheduled, he said, Palley said the "Model 53" is a two-place, low-wing, all-metal monoplane with tricycle landing gear and a power driven bubble canopy. The Model 58 is powered by a 340-horsepower Lycoming engine which turns a three-bladed, constant-speed propeller. The engine is stant-speed propeller. The engine is supercharged to provide sea-level per-formance up to 8,000 feet, is was reported.

TEMCO disclosed the trainer's gross weight, unarmed, is 2993 pounds. Its service ceiling is reported to be more than 25,000 feet; its cruise speed, 174 knots, and its range at 137 knots operating speed, 485 nautical miles.

Installations for two 50- or ,30-calibre machine guns, two Napalm bombs, two 100-pound GP bombs and 16 8CM rockets are built into the trainer.

GE Opens Paris Offices

R. E. Small has been named manager of a new Paris office established to pro-vide additional technical services for General Electric jet engines.

Mr. Small formerly was manager of marketing for the company's Jet Engine Department. In his new capacity, he will work closely with the Air Force, NATO and GE personnel in providing services for supporting company engines now being used by the USAF and foreign coun-

Here Is How Pentagon Will Spend In FY '57

The following table shows how President Eisenhower expects the Defense Department to spend \$35.547 billion dur-

ing the year beginning 1 July.
Particularly significant is the marked increase in expenditures for guided missiles. (See related story on Page 8).

Expenditure by Major Category (Millions of Dollars)

Aeroproducts Turbo Propellers For C-130

TOTAL EXPENDITURES. 35,547

VI

SU

Selection of Aeroproducts turbo pro-pellers for installation on the USAF Lockheed C-130 Hercules combat cargo plane has been announced by Mr. E. B. Newill, General Motors Vice President and General Manager of the Allison Division and Mr. R. E. Lynch, Manager of the Aeroproducts Operations at Dayton, Ohio. Built by Lockheed Aircraft at the Marietta, Ga., division, the Hercules is the first turbo-prop aircraft to be ordered in production quantities by the USAF

in production quantities by the USAF.

A program of extensive research and testing of the Aeroproducts turbo propellers for this airplane has been conducted by the Propeller Laboratory at Wright-Patterson AFB.

The USAF contract is for approximately \$21,000,000.

Powered by four Allison turbo-prop engines, the Hercules is a giant aircraft weighing 62 tons, designed to carry many types of heavy military equipment.

Curtiss-Wright Takes

Over Turbomotor
The acquisition of Turbomotor Associates of Hempstead, Long Island, by Curtiss-Wright Corporation has been announced by Roy T. Hurley, Chairman and President.
The newly accounts

The newly-acquired organization, which will be known as the Turbomotor Division of Curtiss-Wright Corporation, will develop engines in the low to me dium power categories for aircraft, heli-copters, missiles and drone applications. It will be completely separate from Wright Aeronautical and other divisions.

Sees On "Dynamics" Name

General Dynamics Corporation has started suit against Dynamics Corporation of America in the New York State Supreme Court to enjoin the latter firm from using the word "Dynamics" as part of its corporate name. Dynamics Corporation of America is the recently adopted name of the corporation formerly known as Claude Neon Inc. as Claude Neon, Inc.

U. S. Coast Guard

PRESIDENT Eisenhower has asked Congress to vote an increase in Coast Guard funds for the fiscal year beginning July, highlighted by operation of 10

The Chief Executive said the Coast Guard should have \$165,350,000 for fiscal '57, compared with \$160,750,000 voted for the current fiscal year.

Little change in personnel strength is foreseen, however, with the new budget calling for an average force of 25,946 officers and men; the fiscal '56 figure is 25,725.

The President said the Coast Guard plans to operate the same number of vessels throughout the next 18 months, with the equivalent of 18 cutters assigned to six ocean stations and financed by a \$16,240,000 reimbursement from the Defense Department.

It was noted that the Coast Guard, on the basis of actual 1955 figures, expects that its men and ships will participate in operations during fiscal '57 which will save or rescue 675 persons.

Coast Guard aviation is slated to receive two additional aircraft to support the loran stations.

Three loran stations in the Gulf of Mexico have been acquired from the Air Force and seven are being constructed with Defense Department funds.

The Coast Guard construction program calls for replacement of one buoy tender with a modern 100-foot vessel for service in inland waterways.

Aviation procurement includes two P5M aircraft and eight helicopters and construction of a ramp at the San Diego Air Station.

The Coast Guard Reserve Program which has a mobilization requirement of 40,000, will provide training for 6,925 officers and men, an increase of only 475 over the current fiscal year.

Physical Exams

The time is drawing near when all active duty officers are required to take annual physical fitness examinations. Details are contained in Personnel Instruction 38-55. Instructions contained in Article 14-B-13(a) apply to those in the aviation field.

While each individual officer is responsible for obtaining the necessary annual physical, Headquarters orders commanding officers to take action to see that the requirement is fulfilled by juniors under their command.

All reports of physical exams must be the hands of the Commandant (PM) by 31 March,

'Copter Pilots Commended

Letters of Commendation from VAdm. Alfred C. Richmond, USCG, Coast Guard Commandant, have been forwarded to two helicopter pilots and two crew members who participated in mercy missions during the hurricane-flood in New England last summer.

Cited were Cdr. James W. Kincaid. USCG, Lt. Robert A. Lemmon, USCG. AD3 Robert E. Lemanski, USCG, and AD2 Albert G. Wageli, jr., USCG.

Promotion Exam Notes

Headquarters reports that text ma terials for the correspondence course in Naval Machinery are now available and ready for issue.

Officers who previously submitted applications and who have not received the course or who have had applications re-turned, should make resubmissions to the Naval Correspondence Center.

Attention is called to the fact that general duty officers who still have examina-tions to complete in their permanent rank column of Table Ia of Personnel Circular No. 17-53, and special duty officers who have exams to complete in their special duty category who did not take special duty category who did not take regular tests in September 1955 and January 1956 will need to take regular exams on 14 May '56 in order to meet the requirement of two per year. Reexaminations and postponed examinations are not regular examinations which can be used to fulfill the requirement of

Named a Beneficiary? Direct Pay Now O.K.

Armed Forces personnel now are authorized (PL 147 of the 84th Congress) to designate the person (s) they desire to receive unpaid pay and allowances in nt of death

Effective 1 January, the Services were authorized to make direct payments to designated beneficiaries. When the Serviceman does not designate a beneficiary, however, payment must be processed

however, payment must be processed through the General Accounting Office. The GAO makes payment in the following order of preference: (1) widow or widower; (2) child or children and descendents of deceased children, by representation; (3) parents, or the surviving parent; (4) duly appointed legal representations of the deceased. sentative of the estate of the deceased, or in the absence of such a representative, to the person (s) determined to be entitled thereto under the laws of the domicile of the deceased.

Col. George J. B. Fisher, USA-Ret.

Funeral services for Col. George J. B.

Col. George J. B. Fisher, USA-Ret.

Funeral services for Col. George J. B.
Fisher, USA-Ret., who died at his home at Ft. Myers, Fla., on 11 Jan., after a prolonged illness, were held, on 16 Jan., at the Ft. Myer, Va. Chapel, with burial at Arlington National Cemetery.

Born in June 1892, at Camden, N. J., Colonel Fisher's first military service was on the Mexican Border, under General of the Armies John J. Pershing, in the Summer of 1916, as a member of the New Jersey National Guard. He subsequently attended the first Officers' Training Camp at Ft. Myer, Va., and was commissioned a 2d lieutenant, in August 1917. During WWI, he served as a courier between the U. S. and France, obtaining his Regular Army commission as a captain of Coast Artillery, in July 1920. In 1929, Colonel Fisher transferred to the Army Chemical Corps. In WWII, he was in charge of the Civil Defense Schools, throughout the U. S., later serving as the Staff Chemical Officer of the Third Army, under Gen. George Patton, in the European Theater of Operations. Since his retirement in April 1947, Colonel Fisher had served as Special Consultant to the Historical Office, Office of the Chief Chemical Office, Department of the Army. He is the author of the book, "Incendiary Warfare." Taking an active part in Masonic activities, Colonel Fisher be Lodge 51 of Washington, D. C.

He is survived by his widow, Mrs. Beulah Ann McQuilkin Fisher of Ft. Myers; three daughters, Mrs. David D. Hulsey, jr., of Ft. Myers, Mrs. I. J. Turon of Glen Burnie, Md., and Mrs. E. M. Gershater of Arlington, Va.: and two sisters, Mrs. Russell H. Nulty of Washington, D. C., and Mrs. Walter C. Wright of Cape May, N. J.

Honorary pallbearers were Maj. Gens. William M. Creasy, Chief Chemical Officer of the Army: Charles E. Loucks, USA-Ret.; Brig. Gen., John R. Burns. USA; Cols. Stuart G. Hamilton, USA-Ret.; Geoffrey Marshall, USA-Ret.; Frederick W. Gerhard, USA-Ret.; and Edwin S. Bettlehelm, fr., USA-Ret.; and Edwin S. Bettlehelm, fr.,

The new PX, which is expected to cost about \$350,000, will be a single-storey structure with a small second storey section designed for administrative offices.

They Keep Busy

RADM. GEORGE P. KRAKER, USN-Ret., who has been with the Atomic Energy Commission since retirement in 1948, has resumed duties as Deputy Manager of AEC operations at Santa Fe, N. M. He left that position in May 1954 to reorganize and improve procedures for inspection and storage operations at inspection and storage operations at

RADM. SAMUEL E. MORISON, USN-Ret., Professor of American History at Harvard, will lecture on the "Yorktown Military-Naval Campaign of the American Revolution" before members of the Marine Corps Association at Quantico, Va., on 25 Jan., at 8 p.m.

CAPT. JOSEPH K. TAUSSIG. USN-Ret., is campaigning for the Republican nomination for Congress from the fifth Congressional District of Maryland.

MAJ. WILLIAM H. DOBBS, USA-Ret. who ended his active military career last March, is now manager for the Abco Van Lines, Inc., Agency for North Ameri-can Van Lines at 537 N. 33d Street, Louis-

President Asks Huge Regular Buildup

1958 and 55,540 by 1963. This means that the Air Force will more than double its present Regular officer strength. At present, the Air Force has only 17% Regular officers; this will grow to 36% by 1958 and 40% by 1963.

MARINE CORPS—There will be vires.

MARINE CORPS—There will be virtually no change in the Leatherneck officer strength, since the Corps now has 49.5% Regulars. This will rise to 50% by 1958 and remain at that level. The Marines now have about 9000 Regular officers. cers

As THE JOURNAL went to press. Penta-As THE JOURNAL went to press, Pentagon officials had yet to make known specific details as to how the appointments will be made, though it was evident that Secretary Wilson wants thousands of appointments made as quickly as possible. However, precautions will be taken to prevent promotion list "humps" and to safeguard the careers of those already serving in Begular status.

saregular the careers of those already serving in Regular status. The largest number of Regular appoint-ments will be made in the ranks of lieu-tenant and captain in the Army and Air

tenant and captain in the Army and Air Force, though some appointments in high-er grades are anticipated. Chances for favorable Congressional action on the augmentation measure are believed to be excellent. The bill will provide no increase in total officer strength—just the ratio of Regular to

Reserves.
Since thousands of Reserve officers on active duty will be given an opportunity to win permanent status, the Armed Services Committees can be expected to give sympathetic consideration to the

The fact that President Eisenhower used the occasion of two major messages to urge the Regular officer increase will give the legislation a powerful sendoff on Capitol Hill. Secretary Wilson long has championed such an expansion.

In the past, the Budget Bureau has objected to Regular officer increases, once cutting an Army request of 6000 back to 4080. Now that opposition has been eliminated and the Pentagon can press the campaign to improve career opportunities before the Armed Services and Appropriations Committee.

Gen. Strickler To FEC

Maj. Gen. Daniel B. Strickler, USA, has arrived in Japan for duty with United Nations and Far East Command headquarters in Tokyo. He succeeds Brig. Gen. David W. Traub, USA, as Assistant Chief of Staff, J-5 (Civil Affairs) UNC/-FEC. General Traub was scheduled to FEC. General Traub was scheduled to leave Japan on 19 Jan. for the United States where he will be the commanding general of division artillery, Fourth Armored Division, Fort Hood, Texas.

Before leaving the United States General Strickler was a member of the Secretary of the Army Review Board Coun-

Pub. Info. Gyroscope

Maj. Henry Gomez, USA, newly assigned Deputy PIO for AFFE/8th Army signed Deputy PIO for AFFE/8th Army has made the first move in a personal gyroscope operation involving three public information officers. He replaced Maj. Gordon W. Knapp, USA, who takes over as the RyCom PIO this month replacing Capt. B. V. Upton, who succeeds Major Gomez as Chief, Special Events Section, Fourth Army PIO at Ft. Sam Houston, Tex.

MAJ. GEN. RALPH C. COOPER, USA MAJ. GEN. RALPH C. COOPER, USA (right) Chief of Staff of First Army presenting a letter of commendation from the Army Commander, Lt. Gen. Thomas W. Herren, to Lt. Col. Stanley E. Lease (left). Col. Lease, of the Inspection Division of First Army Headquarters, has retired after more than 20 years, active Federal spraying in the quarters, has retired after more than 20 years' active Federal service in the Army's three combat arms—Infantry, Armor, and Artillery. He went to Gov-ernors Island from Korea where he served as Advisor to Republic of Korea troop commanders.

Retired Pay Rises, Goes Over Half Billion

Retired pay for 196,760 persons, including costs of the Uniformed Services Contingency Option Act, which provides benefits for survivors, will go over the half billion dollar mark during the next fiscal year.

The cost will continue to rise in future years, particularly as increasing hundreds of Reservists reaching age 60 with at least 20 years creditable service become eligible for retirement pay.

President Eisenhower's budget shows that for the 12 months beginning 1 July, the Government will pay out to retired Army, Navy, Air Force and Marine Corps officers and enlisted men a total of \$525,000,000.

This compares with \$495,000,000 during the current fiscal year and \$423,500,000 in

fiscal '55.

"The more liberal retirement policies, the forced separation program of officers and the return of recalled retired per-sonnel to the retired list have resulted in a significant increase to the retired rolls," the President's Rudget Mosses of the President's Budget Message related.

Here is a breakdown on the retired

rolls for fiscal years '56 and '57, as prepared by the Office of the Secretary of Defense: Type of retirement:

	'56	257
1. Nongisability	84,363	91,890
2. Temporary disability .	14,735	14,576
3. Permanent disability .	66,975	68,860
4. Fleet reserve	19,190	20,403
Survivors benefits	684	1,031
Total	185,947	196,760

Three Retired Generals On **CGSC Survey Commission**

Three retired Army officers are members of a six-man educational survey commission which will review methods of instruction at the Command and General Staff College, Ft Leavenworth, Kan. The group, under the chairmanship of Dr. Jacob S. Orleans, Educational Observer at the CGSC, also will review the

school's curriculum planning and organ-ization, and will make recommendations to insure the continued efficiency of the college.

The retired Army officers on the com-The retired Army officers on the commission are Lt. Gen. Manton S. Eddy. commandant of the CGSC from Jan., 1948, to Aug., 1950; Lt. Gen. Geoffrey Keyes, director of the Weapons Systems Evaluation Group, Office of the Secretary of Defense, from Feb., 1951, to July, 1954; and Lt. Gen. Troy H. Middleton, President of the Louisiana State University since 1951. Other commission members include two civilian educators. include two civilian educators

President Eisenhower Tells Military Plans, Stresses "Career" Legislation Need

From page 11-

slightly below the level of the current slightly below the level of the current year. This budget provides for the con-struction in the fisacl year 1957 of fa-cilities associated with the continental air defense system, including Nike sites; further additions to the aircraft warning systems, including the Distant Early Warning Line; guided missile fa-cilities; and air bases for the Navy and Air Force.

Expenditures for our Reserve com-

Expenditures for our Reserve com-ponents in the fiscal year 1957 will be considerably greater than in 1956, re-flecting an increase during the year of

about 130,000 reservists in drill pay status and further expansion of facili-ties for the Reserve forces. The number of Reserve personnel engaged in regularly paid drills is expected to increase to 1.1 million by the end of 1957. In addition, this budget provides for 6 months' active duty training under the Reserve Forces Act of 1955 for about 80,000 Reserve forces personnel.

Research and development expenditures will be somewhat higher in the fiscal year 1957 than in the current year. Major emphasis will be placed on proj-ects related to guided missiles, conti-

nental air defense, and to the applica-tion of nuclear energy for the propul-sion of aircraft and ships. It is my belief that increased returns in military research and development can be obresearch and development can be ob-tained through a relatively stable pro-gram at approximately the present level which can utilize effectively our scientific and technological resources. Military research and development now engages a substantial proportion of the research and development in the Nation. Care must be exercised in selecting the projects to be supported, and

efforts must be concentrated on those of high priority.

of high priority.

Continued progress has been made during the past year in improving the management of the Department of Defense. The Secretary of Defense is giving careful study to the recommendations of the Commission on Organization of the Executive Branch of the Government and its task forces on de-fense activities. Some of these recom-mendations have already been put into mendations have already been put into effect; in certain other cases, they have been adopted in modified form, consistent with the objectives of the Commission report. Responsibility for supplying all food, which costs 1.2 billion dollars annually, has been placed under the Secretary of the Army. A single food-supply system for bulk procurement and storage will eliminate duplicate storage facilities and costly crosshauling. The three military departments have also been directed to undertake joint planning and utilization dertake joint planning and utilization of all the health and medical resources of the Department of Defense.

of the Department of Defense.

Financial management has been made more effective by increasing the scope of stock funds. These funds currently cover inventories of over 8.2 billion dollars, and their coverage will be expanded. Stock funds are used to buy supplies and equipment, and to control inventories centrally. Each of the services then meets its needs by purchasing from this central stock. This method makes possible a better distribution of supplies and equipment with a minimum inventory. It encourages cost consciousness throughout each of the services. As a result, in the last 3 fiscal years 2.5 billion dollars have been recovered from the stock funds been recovered from the stock funds as inventories were reduced. Further reductions in inventories this year will make available additional surplus capital of 785 million dollars in the Army, Navy, and Marine Corps stock funds. This surplus is applied in this budget to reduce the amount of new authority to incur obligations which would other-wise be required for the fiscal year 1957.

Industrial funds are being used to serve the same kind of businesslike purpose in commercial-and industrial-type installations. During the fiscal year 1957 industrial fund financing will be extended to additional activities in each of the services. This will greatly increase the volume of business, currently amounting to about 1.8 billion dollars, conducted under such funds.

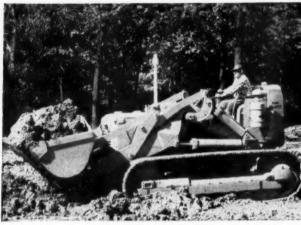

MAJ. GEN. OSCAR P. SNYDER, Chief of the Army Dental Corps, (left), and Maj. Gen. Thomas L. Harrold, USA, III Corps and Ft. Hood Commander (right) take their positions for an honor ceremony at the Fort Hood airfield. The ceremony was in honor of General Snyder's right there during which he inspected visit there during which he inspected dental installations at this large Central-Texas military installation.

High lift, with over 111/2 ft. of dumping height.

CATERPILLAR ANNOUNCES

THE NEW NO. 977 TRAXCAVATOR*

Here's the new boss of all excavator-loaders...the new Caterpillar No. 977 Traxcavator. The No. 977 has important new features which greatly increase productivity and dependability.

Features of the No. 977 Traxcavator

- 96-in., 21/4-cu.-yd. bucket
- 100 HP CAT* Engine, with ample power to "bury" the bucket and lift big loads.
- Bucket tips back 40° at ground level to retain heaping
- More than 111/2 ft. of dumping height make it easy to load any truck or railroad car.
- Steel bumpers on lift arms allow rapid jarring of bucket, and 50° discharge angle helps to empty sticky materials fast.
- Automatic kick-outs put bucket in "hold" position at maximum height and position bucket for digging on next pass. Easier operation and faster cycle times.
- Advanced hydraulic system, with pump protected by full flow filter.
- Hardened, spool-type operating valves located in large tank, protected from dirt or damage.
- Long-lived, trouble-free oil clutch of proved superiority and dependability.

- Fast, one-hand bucket operation. High seat for comfort and visibility.
- Five forward speeds to 7.4 MPH; four reverse speeds to 7 MPH.
- Each track controlled by heavy-duty dry multiple disc steering clutch and contracting band brake.
- Tools for any job: 3-yd. bucket for light material; 9-tooth quarry bucket; heavy-duty bucket; skeleton rock bucket; log and lumber fork.

Now three sizes of Traxcavators are available for all your excavating and material-handling needs. They're unit-built machines, so efficient that you'll find they match or excel competitive equipment with nominally greater bucket sizes. You can choose the right Traxcavator for your job from the No. 933 (1 cu. yd.) —the No. 955 (1½ cu. yd.) —or the No. 977 (2¼ cu. yd.).

To get complete information on the new boss of all excavator-loaders, Caterpillar's new 100 HP, 2½-cu.-yd. No. 977 Traxcavator, just mail the coupon below.
